Aims and scope

Applied Biological Chemistry (Appl Biol Chem), launched on December 1960, is a bimonthly journal co-published by the Korean Society for Applied Biological Chemistry (KSABC) and Springer Verlag. The goal of Appl Biol Chem is to promote scientific information interchange among researchers in the field of applied biological chemistry. The journal covers all the scientific and technological aspects of biochemistry / molecular biology / microbiology, bioactive materials / biomedical sciences, environmental sciences, and food sciences.

Subscription information

Applied Biological Chemistry is published 6 times in 2016 (Volume 59, 6 issues).
