
Contents

Preface	
<i>Rolf Färe, Shawna Grosskopf, and Daniel Primont</i>	VII
Tribute to R. Robert Russell	
<i>Daniel Primont</i>	XI
List of Contributors	XVII
The Pareto-Optima of Finite-Horizon OLG Models	
<i>Charles Blackorby and Craig Brett</i>	1
Derivative Properties of Directional Technology Distance Functions	
<i>Lane Blume Hudgins and Daniel Primont</i>	31
Synergistic Mergers in an Agency Context: An Illustration of the Interaction of the Observability Problem and Synergistic Merger	
<i>Tim S. Campbell and Anthony M. Marino</i>	45
The Le Chatelier Principle in Data Envelopment Analysis	
<i>W. Erwin Diewert and M. Nimfa F. Mendoza</i>	63
Finding Common Ground: Efficiency Indices	
<i>Rolf Färe, Shawna Grosskopf, and Valentin Zelenyuk</i>	83
Sources of Manufacturing Productivity Growth: U.S. States 1990–1999	
<i>Shawna Grosskopf, Kathy Hayes, and Lori L. Taylor</i>	97
Nonparametric Estimation of Higher-Order Moments of Technical Efficiency	
<i>Daniel J. Henderson</i>	117

Measuring Inefficiency with Endogenous Innovation	
<i>William Schworm</i>	129
Don't Aggregate Efficiency But Disaggregate Inefficiency	
<i>Thijs ten Raa</i>	145
Index	153
