Contents

Introduction: Proper Nomenclature Facilitates Clinical and Translational Research in Prostate Cancer ........................................... 1
James L. Mohler and Donald J. Tindall

Part I: The Role of Androgens in Development of the Normal Prostate and Progression of Prostate Cancer

Androgen Action and Modulation of Prostate and Prostate Cancer Growth: An Historical Perspective ........................................ 9
Shutsung Liao, John M. Kokontis, Chih-Pin Chuu, and Richard A. Hiipakka

Clinical Progression to Castration-Recurrent Prostate Cancer ............. 57
Mark Pomerantz and Philip Kantoff

Differential Roles of Androgen Receptor in Prostate Development and Cancer Progression ....................................................... 73
Shuyuan Yeh, Yuanjie Niu, Hiroshi Miyamoto, Tamin Chang, and Chawnshang Chang

Imaging Androgen Receptor Function In Vivo ............................... 91
Michael Carey and Lily Wu

Part II: Androgen Metabolism

Increased Expression of Genes Converting Adrenal Androgens to Testosterone in Castration-Recurrent Prostate Cancer ................. 123
Steven P. Balk
Androgen-Metabolic Genes in Prostate Cancer Predisposition and Progression ................................................. 141
Juergen K.V. Reichardt and Ann W. Hsing

Effect of Steroid 5α-Reductase Inhibitors on Markers of Tumor Regression and Proliferation in Prostate Cancer ......................... 155
Lynn N. Thomas and Roger S. Rittmaster

5α-Reductase Isozymes in Castration-Recurrent Prostate Cancer ...... 175
Mark A. Titus and James L. Mohler

Improving Intermittent Androgen-Deprivation Therapy: OFF Cycle and the Role of Steroid 5α-Reductase Inhibitors ............... 187
Shubham Gupta, Daniel Shevrin, and Zhou Wang

Part III: Androgen Receptor Structure/Function Relationships

Insights from AR Gene Mutations ...................................................... 207
Grant Buchanan, Eleanor F. Need, Tina Bianco-Miotto, Norman M. Greenberg, Howard I. Scher, Margaret M. Centenera, Lisa M. Butler, Diane M. Robins, and Wayne D. Tilley

Functional Motifs of the Androgen Receptor .................................. 241
Elizabeth M. Wilson

The Role of the Androgen Receptor Polyglutamine Tract in Prostate Cancer: In Mice and Men .............................................. 269
Diane M. Robins

The Androgen Receptor Coactivator-Binding Interface ................. 297
Eva Estébanez-Perpiñá and Robert J. Fletterick

Part IV: Co-Regulators of the Androgen Receptor

Co-regulators and the Regulation of Androgen Receptor Action in Prostate Cancer ......................................................... 315
Irina U. Agoulnik and Nancy L. Weigel

Androgen Receptor Coregulators and Their Role in Prostate Cancer ................................................................. 341
Latif A. Wafa, Robert Snoek, and Paul S. Rennie

Interaction of the Androgen Receptor Ligand-Binding Domain with the N-Terminal Domain and with Coactivators ............ 375
Jan Trapman

Part VII: Androgen-Regulated Genes during Prostate Cancer Progression

Androgen Receptor as a Licensing Factor for DNA Replication .......... 619
Donald J. Vander Griend and John T. Isaacs

Androgen-Regulated Genes in the Prostate ................................. 631
Nigel Clegg and Peter S. Nelson

Mapping the Androgen Receptor Cistrome ............................... 663
Qianben Wang and Myles Brown

Differential Regulation of Clusterin Isoforms by the Androgen Receptor ....................................... 681
Tanya K. Day, Colleen C. Nelson, and Martin E. Gleave

Androgen Regulation of Prostate Cancer Gene Fusions .................... 701
Rou Wang, Scott A. Tomlins, and Arul M. Chinnaiyan

Androgens and the Lipogenic Switch in Prostate Cancer .................. 723
Johannes V. Swinnen, Koen Brusselmans, Hannelore V. Heemers, and Guido Verhoeven

Part VIII: The Androgen Receptor as a Drugable Target

Molecular Biology of Novel Targets Identified Through Study of Castration-Recurrent Prostate Cancer ......................... 743
Philip A. Watson and Charles L. Sawyers

Selenium and Androgen Receptor in Prostate Cancer .................... 755
Nagalakshmi Nadiminty and Allen C. Gao
