Contents

From Information Systems Development to Enterprise Engineering .... 1
Jan L. G. Dietz

The Mobile and Mobility: Information, Organisations and Systems .... 25
John Traxler

Design of Situational Artefacts—Conceptual Foundations and Their Application to IT/Business Alignment ......................... 35
Robert Winter

Preferences of Business Process Models: Interpretative Analysis on Spontaneously Common Symbols .................................. 51
Saleh Al-wahaishi, Ahmad Jaffar, Ivo Vondrák, Václav Snášel and Jaroslav Pokorný

Verification of i* Models Using Alloy ........................................ 63
Peter Oluoch Ating’a and Aneesh Krishna

Planning and Scheduling of Business Processes in Run-Time: A Repair Planning Example ........................................... 75
Irene Barba and Carmelo Del Valle

A Study of First Click Behaviour and User Interaction on the Google SERP ................................................................. 89
Chris Barry and Mark Lardner

Effective QoS Aware Web Service Composition in Dynamic Environment ................................................................. 101
Peter Bartalos and Mária Bieliková

The Right Tools for the Right Tasks: Meaningful Education for IS Professional ............................................................... 115
Peter M. Bednar and Christine Welch
Conditions Influencing Client–IS Supplier Interactions During IS Outsourcing
Linda Bergkvist

Facilitating the Creation of Quality Object Models Using a Knowledge Based System
Narasimha Bolloju and Christoph Schneider

MetaMorPic: Self-Contained Photo Archival and Presentation
Tomas Cerny and Michael J. Donahoo

A Real Time Multiagent Information Systems Architecture for Actively Monitoring Chronic Diseases
Emma Chavez-Mora and Gavin Finnie

Making Business Systems in the Telecommunication Industry More Customer-Oriented
Christian Czarnecki, Axel Winkelmann and Myra Spiliopoulou

Convolution as the Key for Service-Identification in Complex Process Models
Gunnar Dietz, Martin Juhrisch and Katrina Leyking

Studying Maintainability on Model-Driven Web Methodologies
Francisco José Domínguez-Mayo, María José Escalona, Manuel Mejías and Jesús Torres

Using Antenarrative Approaches to Investigate the Perceptions of Information Systems’ Actors Regarding Failure and Success
Lynette Drevin and Darren Dalcher

Towards a Unified Service Definition
George Feuerlicht and Lukas Burkon

A Process-Oriented Approach to Support Dynamic Evolution in Distributed Applications
Kam Hay Fung and Graham Low

Regulated Open Multi-Agent Systems Based on Contracts
Emilia Garcia, Adriana Giret and Vicente Botti

Modeling Method for Bridging Pragmatic and Semantic Dimensions of Service Architectures
Prima Gustiené and Remigijus Gustas
Automatic Tool Support for Cardinality-Based Feature Modeling with Model Constraints for Information Systems Development .......... 271
Abel Gómez and Isidro Ramos

Towards a Conceptual Model for Trustworthy Skills Profiles in Online Social Networks .......................................................... 285
Till Haselmann, Axel Winkelmann and Gottfried Vossen

Nicklas Holmberg and Odd Steen

From Organization Business Model to Information System: One Approach and Lessons Learned ................................................. 309
Janis Iljins and Maris Treimanis

Assessment of Ontology Development and Management Tools According to the Axioms ............................................. 321
Diana Kalibatiene and Olegas Vasilecas

Semi-Automatic Transformation of an XML Schema to XForms .......... 331
Ján Kasarda and Tomáš Bartoš

Research Directions of OLAP Personalizaton .................................... 345
Natalija Kozmina and Laila Niedrite

Extending UML with Non-functional Requirements Modelling .......... 357
Aneesh Krishna and Andreas Gregoriades

Bottleneck of the Development of Public Information Systems .......... 373
Jaroslav Král and Michal Žemlička

A Framework for Optimizing Inter-operating Business Process Portfolio .......................................................... 383
Tri A. Kurniawan, Aditya K. Ghose and Lam-Son Lê

Michael Lang

A Framework for Intention-Driven Requirements Engineering of Innovative Software Products ............................................. 417
Mauri Leppänen, Juha Lamminen and Pertti Saariluoma

Using Real-Time Event Stream Framework to Develop RFID-based Retailer Supermarket Systems ............................................. 429
Liao Guoqiong, William Wei Song, Shu Lei and Wan Changxuan
