

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Creativity at Play . . . . .	1
1.1.1	Computational Creativity . . . . .	2
1.1.2	Creativity in Games . . . . .	3
1.2	Overview . . . . .	3
1.2.1	Structure . . . . .	4
<b>2</b>	<b>Games in General</b> . . . . .	5
2.1	Defining Games . . . . .	5
2.1.1	Combinatorial Games . . . . .	6
2.2	Game Elements . . . . .	7
2.2.1	Ludemes . . . . .	7
2.2.2	Variants . . . . .	8
2.2.3	Recombination Games . . . . .	9
2.2.4	Game Distance . . . . .	9
<b>3</b>	<b>The Ludi System</b> . . . . .	11
3.1	Game Description Language . . . . .	11
3.2	General Game Player . . . . .	13
3.2.1	Anti-Cycle Measures . . . . .	14
3.3	Strategy Module . . . . .	15
3.3.1	Advisors . . . . .	16
3.3.2	<i>N</i> -in-a-Row Advisor . . . . .	16
3.3.3	Policies . . . . .	17
3.3.4	Policy Selection . . . . .	18
3.3.5	Emergent Strategies . . . . .	19
3.4	Experiment I: Game Ranking . . . . .	21

<b>4 Measuring Games . . . . .</b>	23
4.1 Quantifying Quality . . . . .	23
4.1.1 Game Quality . . . . .	24
4.1.2 Aesthetic Measure . . . . .	24
4.1.3 Aesthetic Model . . . . .	25
4.1.4 Operation . . . . .	26
4.2 Aesthetic Criteria . . . . .	26
4.2.1 Intrinsic Criteria . . . . .	27
4.2.2 Viability Criteria . . . . .	27
4.2.3 Quality Criteria . . . . .	28
4.3 Experiment II: Game Measurement . . . . .	33
4.3.1 Method . . . . .	33
4.3.2 Results . . . . .	33
<b>5 Evolving Games . . . . .</b>	37
5.1 Computer Aided Game Design . . . . .	37
5.1.1 Genetic Programming . . . . .	38
5.2 Evolutionary Game Design . . . . .	39
5.2.1 Quality Assurance . . . . .	43
5.3 Experiment III: Game Synthesis . . . . .	48
<b>6 Viable Games . . . . .</b>	51
6.1 Discussion . . . . .	72
<b>7 Yavalath . . . . .</b>	75
7.1 Analysis . . . . .	75
7.1.1 Rules . . . . .	75
7.1.2 Forcing Moves . . . . .	76
7.1.3 Puzzle Solution . . . . .	77
7.1.4 Strong Patterns . . . . .	78
7.1.5 First Move Advantage . . . . .	79
7.1.6 Draws . . . . .	82
7.1.7 Three Players . . . . .	82
7.2 Impact . . . . .	83
7.2.1 Publication . . . . .	83
7.2.2 Reception . . . . .	83
7.2.3 Acceptance . . . . .	84
7.2.4 Inspiration . . . . .	85
<b>8 Conclusion . . . . .</b>	87
8.1 Regarding the Hypotheses . . . . .	87
8.2 Regarding the New Games . . . . .	87
8.3 Regarding the Evolutionary Approach . . . . .	88
8.4 Regarding Computational Creativity . . . . .	89

Contents	xi
<b>Appendix A: Ludi GDL: Grammar . . . . .</b>	91
<b>Appendix B: Ludi GDL: Functional Description. . . . .</b>	97
<b>Appendix C: List of Advisors. . . . .</b>	105
<b>Appendix D: List of Aesthetic Criteria. . . . .</b>	107
<b>References . . . . .</b>	117
<b>Index . . . . .</b>	121
