

Contents

1 Alveolar Macrophages	1
David H. Dockrell, Paul J. Collini, and Helen M. Marriott	
2 Lung Dendritic Cells and Pulmonary Defence Mechanisms to Bacteria.....	49
Bart N. Lambrecht, Katrijn Neyt, Corine H. GeurtsvanKessel, and Hamida Hammad	
3 CD4 T-Cell Immunity in the Lung	67
Jay K. Kolls	
4 Neutrophils in Acute Bacterial Pneumonia	83
John C. Gomez, Qin Wang, and Claire M. Doerschuk	
5 Toll-Like Receptors in the Airway Epithelium.....	125
Shawn J. Skerrett	
6 Type I Interferon Responses to Airway Pathogens	139
Dane Parker	
7 Transcriptional Signaling Hubs in Epithelial Cells During Pneumonia	159
Lee J. Quinton and Joseph P. Mizgerd	
8 Innate Immune Responses in Ventilator-Associated Pneumonia	185
Megan N. Ballinger and Theodore J. Standiford	

9 *Streptococcus pneumoniae*: The Prototype of Lung Responses in Pneumonia 213
Jessica Humann, Kim LeMessurier, and Elaine Tuomanen

10 *Staphylococcus aureus* Infection in the Respiratory Tract..... 239
Alice Prince

11 *Pseudomonas aeruginosa* and Mucosal Defenses in the Lung..... 259
Taylor S. Cohen

Index..... 271
