Preface ................................................................. v
Contributors ............................................................ ix

PART I REVIEW

1 Axon Regeneration: What Needs to Be Overcome? ......................... 3
   Andrew J. Murray

PART II MONITORING INTRACELLULAR PATHWAYS IN GROWTH CONES

2 Analysis of Calcium Signals in Steering Neuronal Growth Cones In Vitro .................................................. 17
   Hiroki Akiyama and Hiroyuki Kamiguchi

3 The Use of Fluorescence Resonance Energy Transfer (FRET) to Measure Axon Growth and Guidance-Related Intracellular Signalling in Live Dorsal Root Ganglia Neuronal Growth Cones ......................... 29
   Steven J. Tucker

PART III ASSESSING AXONAL RESPONSES TO EXTRACELLULAR FACTORS IN VITRO

4 Neurite Outgrowth and Growth Cone Collapse Assays to Assess Neuronal Responses to Extracellular Cues ......................... 43
   Andrew Kaplan, Ricardo Sanz, Gino B. Ferraro, Ricardo Alchini, and Alyson E. Fournier

5 Quantitative Assessment of Neurite Outgrowth in Mouse Retinal Explants .................................................. 57
   Tom Buyens, Djore Gaublomme, Inge Van Hove, Lies De Groef, and Lieve Moons

6 Growth Cone Collapse Assay ........................................ 73
   Geoffrey M.W. Cook, Prem Jareonsettasin, and Roger J. Keynes

7 Axon Length Quantification Microfluidic Culture Platform for Growth and Regeneration Study .............................. 85
   Jaewon Park, Sunja Kim, Jianrong Li, and Arum Han

8 Organotypic Slice Co-culture Systems to Study Axon Regeneration in the Dopaminergic System Ex Vivo ......................... 97
   Claudia Heine and Heike Franke

9 Monitoring Neuron and Astrocyte Interactions with a 3D Cell Culture System .................................................. 113
   James B. Phillips

vii
PART IV  AXON INJURY AND REGENERATION IN VIVO

10  Targeting Inhibitory Chondroitin Sulphate Proteoglycans to Promote Plasticity After Injury  .................................................. 127
    Jessica C.F. Kwok, Janosch P. Heller, Rong-Rong Zhao,
    and James W. Fawcett

11  Polymeric Biomaterials for Nerve Regeneration: Fabrication and Implantation of a Biodegradable Nerve Guide ............. 139
    Wesley N. Sivak, Jacqueline M. Bliley, and Kacey G. Marra

12  A Highly Reproducible Mouse Model of Compression Spinal Cord Injury  .............................................................. 149
    Suellen Adriani Marques, Fernanda Martins de Almeida, 
    Klaus Mostacada, and Ana Maria Blanco Martinez

13  Using Templated Agarose Scaffolds to Promote Axon Regeneration Through Sites of Spinal Cord Injury  ........................ 157
    Jacob Koffler, Ramsey F. Samara, and Ephron S. Rosenzweig

14  In Vivo Electroporation of Adult Mouse Sensory Neurons for Studying Peripheral Axon Regeneration  ......................... 167
    Saijilafu, Bo-Yin Zhang, and Feng-Quan Zhou

PART V  ASSESSING THE EXTENT OF AXON REGENERATION

15  Assessing Motor Outcome and Functional Recovery Following Nerve Injury  ............................................................ 179
    Ronald Deumens, Claudia Marinangeli, Ahmet Bozkurt, 
    and Gary Anthony Brook

16  The Use of an Adeno-Associated Viral Vector for Efficient Bicistronic Expression of Two Genes in the Central Nervous System  189
    Thomas Haynes Hutson, Claudia Kathe, Sean Christopher Menezes, 
    Marie-Claire Rooney, Hansruedi Bueler, 
    and Lawrence David Falcon Moon

17  Application of Tissue Clearing and Light Sheet Fluorescence Microscopy to Assess Optic Nerve Regeneration in Unsectioned Tissues  209
    Xueting Luo, Benjamin Yungher, and Kevin K. Park

18  Time-Lapse In Vivo Imaging of Dorsal Root Nerve Regeneration in Mice  ............................................................. 219
    Andrew Skuba, Meredith Ann Manire, Hyukmin Kim, 
    Seung Baek Han, and Young-Jin Son

19  Using Manganese-Enhanced MRI to Assess Optic Nerve Regeneration  .............................................................. 233
    Ioanna Sandvig and Axel Sandvig

Index  ................................................................................................................... 251
