The Olivo-Cerebellar System as a Neural Clock ................. 155
James Ashe and Khalaf Bushara

From Duration and Distance Comparisons to Goal Encoding in Prefrontal Cortex ........................................ 167
A. Genovesio and S. Tsujimoto

Probing Interval Timing with Scalp-Recorded Electroencephalography (EEG) ............................................. 187
Kwun Kei Ng and Trevor B. Penney

Searching for the Holy Grail: Temporally Informative Firing Patterns in the Rat ................................. 209
Matthew S. Matell

Part IV Functional Imaging and Interval Timing

Getting the Timing Right: Experimental Protocols for Investigating Time with Functional Neuroimaging and Psychopharmacology ............................................. 237
Jennifer T. Coull

Motor and Perceptual Timing in Parkinson’s Disease ........ 265
Catherine R.G. Jones and Marjan Jahanshahi

Part V Neural Underpinnings of Rhythm and Music

Music Perception: Information Flow Within the Human Auditory Cortices ........................................... 293
Arafat Angulo-Perkins and Luis Concha

Perceiving Temporal Regularity in Music: The Role of Auditory Event-Related Potentials (ERPs) in Probing Beat Perception ......................................................... 305
Henkjan Honing, Fleur L. Bouwer, and Gábor P. Háden

Neural Mechanisms of Rhythm Perception: Present Findings and Future Directions ............................. 325
Li-Ann Leow and Jessica A. Grahn

Neural Underpinnings of Music: The Polyrhythmic Brain .... 339
Peter Vuust, Line K. Gebauer, and Maria A.G. Witek

Index ........................................................................... 357
