## Contents

Preface ............................................................. v  
Contributors ......................................................... xi  

**PART I  TRANSCRIPTION FACTOR TRAFFICKING AND POST-TRANSLATIONAL MODIFICATIONS: OVERVIEWS OF MECHANISMS**

1 A Review of Post-translational Modifications and Subcellular Localization of Ets Transcription Factors: Possible Connection with Cancer and Involvement in the Hypoxic Response .............................. 3  
*Céline Charlot, Hélène Dubois-Pot, Tsvetan Serchov, Yves Tourrette, and Bobdan Wasylyk*  

2 Regulation of Transcription Factor Function by Targeted Protein Degradation: An Overview Focusing on p53, c-Myc, and c-Jun .............. 31  
*Jukka Westermarck*  

3 Review of Molecular Mechanisms Involved in the Activation of the Nrf2-ARE Signaling Pathway by Chemopreventive Agents ............. 37  
*Aldo Giudice, Claudio Arra, and Maria C. Turco*  

**PART II  CYTOPLASMIC-NUCLEAR TRAFFICKING OF TRANSCRIPTION FACTORS**

4 Subnuclear Localization and Intranuclear Trafficking of Transcription Factors ............................................ 77  
*Sayed K. Zaidi, Ricardo F. Medina, Shirwin M. Pockwinse, Rachit Bakshi, Krishna P. Kota, Syed A. Ali, Daniel W. Young, Jeffery A. Nickerson, Amjad Javed, Martin Montecino, Andre J. van Wijnen, Jane B. Lian, Janet L. Stein, and Gary S. Stein*  

5 Analysis of Ligand-Dependent Nuclear Accumulation of Smads in TGF-β Signaling  ........................................ 95  
*Douglas A. Chapnick and Xuedong Liu*  

6 Raf/MEK/MAPK Signaling Stimulates the Nuclear Translocation and Transactivating Activity of FOXM1 .......................... 113  
*Richard Y. M. Ma, Tommy H. K. Tong, Wai Ying Leung, and Kwok-Ming Yao*  

7 Coupling of Dephosphorylation and Nuclear Export of Smads in TGF-β Signaling ........................................... 125  
*Fangyan Dai, Xucyan Duan, Yao-Yun Liang, Xia Lin, and Xin-Hua Feng*  

8 Assessing Sequence-Specific DNA Binding and Transcriptional Activity of STAT1 Transcription Factor ................................. 139  
*Thomas Meyer and Uwe Vinkemeier*
Contents

9 Analysis of Nuclear Export Using Photoactivatable GFP Fusion Proteins and Interspecies Heterokaryons ........................................... 161
Kerry-Ann Nakrieko, Iordanka A. Ivanova, and Lina Dagnino

10 Determination of Nuclear Localization Signal Sequences for Krüppel-Like Factor 8 .......................................................... 171
Tina S. Mehta, Farah Monzur, and Jihe Zhao

11 Methods to Measure Nuclear Export of β-Catenin Using Fixed and Live Cell Assays ......................................................... 187
Manisha Sharma and Beric R. Henderson

12 Imaging of Transcription Factor Trafficking in Living Cells: Lessons from Corticosteroid Receptor Dynamics ................................................. 199
Mayumi Nishi

PART III  POST-TRANSLATIONAL MODIFICATIONS AND IMPACT ON FUNCTION

13 Hypoxia-Inducible Factors: Post-translational Crosstalk of Signaling Pathways ................................................................. 215
Elitsa Y. Dimova and Thomas Kietzmann

Kapil Bharti, Julien Debbache, Xin Wang, and Heinz Arnheiter

15 Phosphorylation Control of Nuclear Receptors .................................. 251
Sébastien Lalevée, Christine Ferry, and Cécile Rochette-Egly

16 Regulation of Krüpple-Like Factor 5 by Targeted Protein Degradation .......... 267
Ceshi Chen

17 Post-translational Control of ETS Transcription Factors: Detection of Modified Factors at Target Gene Promoters ........................................... 279
Li Li, Janice Saxton, and Peter E. Shaw

18 Integration of Protein Kinases into Transcription Complexes: Identifying Components of Immobilised In Vitro Pre-initiation Complexes ........ 291
Hong-Mei Zhang, Stéphanie Vougier, Glenn Hodgson, and Peter E. Shaw

19 Post-translational Modification of p53 by Ubiquitin ........................................... 305
Chunhong Yan

20 Phosphorylation-Dependent Regulation of SATB1, the Higher-Order Chromatin Organizer and Global Gene Regulator ............................... 317
Dimple Notani, Amita S. Limaye, P. Pavan Kumar, and Sanjeev Galande

PART IV  PROTOCOLS FOR OPTIMIZATION OF FUNCTIONAL ASSAYS

21 In Vivo and In Vitro Tools to Identify and Study Transcriptional Regulation of USF-1 Target Genes ....................................................... 339
Marie-Dominique Galibert and Sébastien Corre

22 Measuring the Absolute Abundance of the Smad Transcription Factors Using Quantitative Immunoblotting ............................................. 357
David C. Clarke and Xuedong Liu
23  Flow Cytometry Analysis of Transcription Factors in T Lymphocytes .......... 377
   Diana I. Albu, Danielle Califano, and Dorina Avram

24  Identification of Specific Protein/E-Box-Containing DNA Complexes:
    Lessons from the Ubiquitously Expressed USF Transcription Factors
    of the b-HLH-LZ Super Family ...................................... 391
   Marie-Dominique Galibert and Yorann Baron

Index ............................................................... 407
Transcription Factors
Methods and Protocols
Higgins, P.J. (Ed.)
2010, XIV, 377 p., Hardcover
