Contents

Part I  Risk in History, Society and Science

1  Risk in Historical Perspective: Concepts, Contexts, and Conjunctions  ....................................................... 3
   Karin Zachmann

2  Risk Management and Business Ethics: Integrating the Human Factor ....................................................... 37
   Christoph Luetge, Eberhard Schnebel, and Nadine Westphal

3  Decision-Making Under Risk: A Normative and Behavioral Perspective ..................................................... 63
   Daniel Straub and Isabell Welpe

4  The New Role of Mathematical Risk Modeling and Its Importance for Society ............................................... 95
   Klaus Mainzer

Part II  Quantitative Risk Methodology

5  The Mathematical Concept of Measuring Risk .................................. 133
   Francesca Biagini, Thilo Meyer-Brandis, and Gregor Svindland

6  Quantifying Extreme Risks ....................................................... 151
   Vicky Fasen, Claudia Klüppelberg, and Annette Menzel

7  Statistical Models for the Prediction of Genetic Values ................ 183
   Chris-Carolin Schön and Valentin Wimmer

8  Bayesian Risk Analysis ......................................................... 207
   Claudia Czado and Eike Christian Brechmann

9  Dealing with Dependent Risks ................................................ 241
   Claudia Klüppelberg and Robert Stelzer
10 Model Risk and Uncertainty—Illustrated with Examples from Mathematical Finance .......................... Karl F. Bannör and Matthias Scherer 279

Part III Risk Treatment in Various Applications

11 Cost-Benefit Analysis .................................. Jutta Roosen 309

12 Engineering Risk Assessment .......................... Daniel Straub 333

13 Integrated Modeling of Complex Production Automation Systems to Increase Dependability ............ Birgit Vogel-Heuser and Susanne Rösch 363

14 Information Technology Risks: An Interdisciplinary Challenge .................................................. Michael Schermann, Manuel Wiesche, Stefan Hoermann, and Helmut Krcmar 387

15 Risk Issues in Developing Novel User Interfaces for Human-Computer Interaction ............................. Gudrun Klinker, Manuel Huber, and Marcus Tönnis 407

16 Translational Risk Models ................................. Donna Pauler Ankerst, Vanadin Seifert-Klauss, and Marion Kiechle 441

17 Risk Reduction of Cervical Cancer Through HPV Screening and Vaccination—Assumptions and Reality ................................................................. Leonore Thümer, Ulrike Protzer, and Vanadin Seifert-Klauss 459
Risk – A Multidisciplinary Introduction
Klüppelberg, C.; Straub, D.; Welpe, I.M. (Eds.)
2014, X, 476 p. 100 illus., 42 illus. in color., Hardcover
ISBN: 978-3-319-04485-9
