7 Modeling of Automatic Generation Control in Power Systems  
V. Pavlovsky and A. Steliuk  

8 Gas Turbine Modelling for Power System Dynamic Simulation Studies  
Lasantha Meegahapola and Damian Flynn  

9 Implementation of Simplified Models of DFIG-Based Wind Turbines for RMS-Type Simulation in DIgSILENT PowerFactory  
José Luis Rueda, Abdul W. Korai, Jaime C. Cepeda, István Erlich and Francisco M. Gonzalez-Longatt  

10 Parameterized Modal Analysis Using DIgSILENT Programming Language  
Sergio Pizarro-Gálvez, Héctor Pulgar-Painemal and Víctor Hinojosa-Mateus  

José Luis Rueda, Jaime C. Cepeda, István Erlich, Abdul W. Korai and Francisco M. Gonzalez-Longatt  

12 Mean–Variance Mapping Optimization Algorithm for Power System Applications in DIgSILENT PowerFactory  
Jaime C. Cepeda, José Luis Rueda, István Erlich, Abdul W. Korai and Francisco M. Gonzalez-Longatt  

13 Application and Requirement of DIgSILENT PowerFactory to MATLAB/Simulink Interface  
Shadi Khaleghi Kerahroudi, Mohsen M. Alamuti, F. Li, G.A. Taylor and M.E. Bradley  

14 Advanced Applications of DPL: Simulation Automation and Management of Results  
Matthias Stifter, Serdar Kadam and Benoît Bletterie  

15 Interfacing PowerFactory: Co-simulation, Real-Time Simulation and Controller Hardware-in-the-Loop Applications  
Matthias Stifter, Filip Andrén, Roman Schwalbe and Werner Tremmel
16 PowerFactory as a Software Stand-in for Hardware in Hardware-In-Loop Testing ........................... 367
Radhakrishnan Srinivasan

17 Programming of Simplified Models of Flexible Alternating Current Transmission System (FACTS) Devices Using DlgsILENT Simulation Language ............................ 391
Jaime C. Cepeda, Esteban D. Agüero and Delia G. Colomé

18 Active and Reactive Power Control of Wind Farm Based on Integrated Platform of PowerFactory and MATLAB ........ 421
Min-hui Qian, Da-wei Zhao, Da-jun Jiang, Ling-zhi Zhu and Jin Ma

19 Implementation of Simplified Models of Local Controller for Multi-terminal HVDC Systems in DlgsILENT PowerFactory .......................................................... 447
Francisco M. Gonzalez-Longatt, J.M. Roldan, José Luis Rueda, C.A. Charalambous and B.S. Rajpurohit

20 Estimation of Equivalent Model for Cluster of Induction Generator Based on PMU Measurements ................................. 473
Francisco M. Gonzalez-Longatt, José Luis Rueda, C.A. Charalambous and P. De Oliveira
PowerFactory Applications for Power System Analysis
Gonzalez-Longatt, F.; Luis Rueda, J. (Eds.)
2014, XIII, 489 p. 262 illus., 185 illus. in color.,
Hardcover
ISBN: 978-3-319-12957-0
