## Contents

### ProHealth 2014

Modeling and Monitoring Variability in Hospital Treatments: A Scenario Using CMMN ................................................................. 3  
_Nico Herzberg, Kathrin Kirchner, and Mathias Weske_

Recommendations for Medical Treatment Processes: The PIGS Approach ................................................................. 16  
_Marcin Hewelt, Aaron Kunde, Mathias Weske, and Christoph Meinel_

Modelling and Implementation of Correct by Construction Healthcare Workflows ......................................................... 28  
_Petros Papapanagiotou and Jacques Fleuriot_

MET4: Supporting Workflow Execution for Interdisciplinary Healthcare Teams ................................................................. 40  
_Szymon Wilk, Davood Astaraky, Wojtek Michalowski, Daniel Amyot, Runzhuo Li, Craig Kuziemsky, and Pavel Andreev_

Enhancing Guideline-Based Decision Support with Distributed Computation Through Local Mobile Application (Short Paper) ................................................. 53  
_Erez Shalom, Yuval Shahar, Ayelet Goldstein, Elior Ariel, Silvana Quaglini, Lucia Sacchi, Nick Fung, Valerie Jones, Tom Broens, Gema García-Sáez, and Elena Hernando_

Storlet Engine for Executing Biomedical Processes Within the Storage System ................................................................. 59  
_Simona Rabinovici-Cohen, Ealan Henis, John Marberg, and Kenneth Nagin_

### SBP 2014

Conformance Checking Based on Partially Ordered Event Data ......................................................... 75  
_Xixi Lu, Dirk Fahland, and Wil M.P. van der Aalst_

Online Compliance Monitoring of Service Landscapes (Short Paper) ......................................................... 89  
_J.M.E.M. van der Werf and H.M.W. Verbeek_

Privacy Preserving Business Process Fusion (Short Paper) ......................................................... 96  
_Roberto Guanciale and Dilian Gurov_
PMC-MR 2014

Configuring Configurable Process Models Made Easier: An Automated Approach ......................................................... 105
   D.M.M. Schunselaar, Henrik Leopold, H.M.W. Verbeek,
   Wil M.P. van der Aalst, and Hajo A. Reijers

When Language Meets Language: Anti Patterns Resulting from Mixing Natural and Modeling Language ................................................. 118
   Fabian Pittke, Henrik Leopold, and Jan Mendling

vrBPMN* and FM: An Approach to Model Business Process Line ................................................................. 130
   Geraldo Landre, Edilson Palma, Débora Maria Paiva,
   Elisa Yumi Nakagawa, and Maria Istela Cagnin

BPCAS 2014

Context-Aware Programming for Hybrid and Diversity-Aware Collective Adaptive Systems .................................................. 145
   Hong-Linh Truong and Schahram Dustdar

Towards Cognitive BPM as the Next Generation BPM Platform for Analytics-Driven Business Processes (Short Paper) .................. 158
   Hamid R. Motahari Nezhad and Rama Akkiraju

Towards Ensuring High Availability in Collective Adaptive Systems (Short Paper) ...................................................... 165
   David Richard Schäfer, Santiago Gómez Sáez, Thomas Bach,
   Vasilios Andrikopoulos, and Muhammad Adnan Tariq

DAB 2014

Analytics Process Management: A New Challenge for the BPM Community ................................................................. 175
   Fenno F. (Terry) Heath III and Richard Hull

Towards Location-Aware Process Modeling and Execution .................. 186
   Xinwei Zhu, Guobin Zhu, Seppe K.L.M. Vanden Broucke,
   Jan Vanthienen, and Bart Baesens

Extending CPN Tools with Ontologies to Support the Management of Context-Adaptive Business Processes ......................... 198
   Estefanía Serral, Johannes De Smedt, and Jan Vanthienen

Using Data-Object Flow Relations to Derive Control Flow Variants in Configurable Business Processes .......................... 210
   Riccardo Cognini, Flavio Corradini, Andrea Polini, and Barbara Re
