# Contents

## Advancement in Workflow Technologies

Realisation of Cost-Informed Process Support Within the YAWL Workflow Environment .......................................................... 3  
*M. Adams, M.T. Wynn, C. Ouyang, and A.H.M. ter Hofstede*

A Cloud Workflow Modeling Framework Using Extended Proclets ........ 19  
*Hua Huang, Rong Peng, Zaiwen Feng, and Min Zhang*

A Gateway-Centered Workflow Rollback-Points Ancestry Model for Sustainable Workflow Enactments .................................................. 35  
*Minjae Park, Hyun Ahn, Haksung Kim, and Kwanghoon Pio Kim*

jBPM4S: A Multi-tenant Extension of jBPM to Support BPaaS ............... 43  
*Dongjin Yu, Qi Zhu, Dalong Guo, Binbin Huang, and Jianwen Su*

## Resources Allocation Strategies

An Efficient Resource Allocation Mechanism Based on Dynamic Pricing Reverse Auction for Cloud Workflow Systems .......................... 59  
*Xuejun Li, Xiangjun Liu, and Erzhou Zhu*

*Arif Wibisono, Amna Shifia Nisafani, Hyerim Bae, and You-Jin Park*

## Algorithms for Process Analysis

Run JTA in JTang: Modeling in Artifact-Centric Model and Running in Activity-Centric Environment .................................................. 83  
*Binbin Fan, Ying Li, Shengpeng Liu, and Yangtao Zhang*

TAR++: A New Process Model Similarity Algorithm Based on the Importance of TARs ................................................................. 98  
*Shuhao Wang, Ming Yin, Zixuan Wang, and Jianmin Wang*
## Process Mining

Material Movement Analysis for Warehouse Business Process Improvement with Process Mining: A Case Study .......................... 115  
*Mahendrawathi ER, Hanim Maria Astuti, and Ika Rakhma Kusuma Wardhani*

An Analytic Framework of Design for Semiconductor Manufacturing  ... 128  
*Chia-Yu Hsu*

Workload and Delay Analysis in Manufacturing Process Using Process Mining ................................................................. 138  
*Minjeong Park, Minseok Song, Tae Hyun Baek, SookYoung Son, Seung Jin Ha, and Sung Woo Cho*

## Emerging Topics in BPM

Social-Network-Based Personal Processes ................................. 155  
*Seyed Alireza Hajimirsadeghi, Hye-Young Paik, and John Shepherd*

Discovering Information Diffusion Processes Based on Hidden Markov Models for Social Network Services .......................... 170  
*Berny Carrera, JinSung Lee, and Jae-Yoon Jung*

Process Visualization Techniques for Multi-perspective Process Comparisons ................................................................. 183  
*A. Pini, R. Brown, and M.T. Wynn*

## Author Index

............................................. 199
Asia Pacific Business Process Management
Third Asia Pacific Conference, AP-BPM 2015, Busan, South Korea, June 24–26, 2015, Proceedings
Bae, J.; Suriadi, S.; Wen, L. (Eds.)
2015, XII, 199 p. 84 illus., Softcover
ISBN: 978-3-319-19508-7
