# Contents

## Part I

A Glimpse at Paul G. Spirakis ................................. 3

*Ioannis Chatzigiannakis, Dimitris Fotakis, Spyros Kontogiannis, Othon Michail, Sotiris Nikoletseas, Grammati Pantziou, and Christos Zaroliagis*

The Reality Game Theory Imposes (Short Summary) .................... 25

*Shlomi Dolev*

On Neural Networks and Paul Spirakis ............................ 27

*Christos H. Papadimitriou*

Concurrency, Parallelism, Asynchrony and Life ..................... 29

*Marina Papatriantafilou*

## Part II Invited Talks

Rationality Authority for Provable Rational Behavior ................. 33

*Shlomi Dolev, Panagiota N. Panagopoulou, Mikaël Rabie, Elad M. Schiller, and Paul G. Spirakis*

Weighted Boolean Formula Games .................................. 49

*Marios Mavronicolas, Burkhard Monien, and Klaus W. Wagner*

On the Implementation of Combinatorial Algorithms for the Linear Exchange Market ........................................... 87

*Kurt Mehlhorn*

## Part III Regular Contributions

On Radiocoloring Hierarchically Specified Planar Graphs:

*$\mathcal{PSPACE}$-completeness and Approximations ........................ 97

*Maria Andreou, Dimitris Fotakis, Vicky Papadopoulou Lesta, Sotiris Nikoletseas, and Paul Spirakis*

Performance Evaluation of Routing Mechanisms for VANETs in Urban Areas ......................................................... 133

*Christos Bouras, Vaggelis Kapoulas, and Enea Tsanai*

Pioneering the Establishment of the Foundations of the Internet of Things .......................... 154

*Ioannis Chatzigiannakis*
An Optimal Parallel Algorithm for Minimum Spanning Trees in Planar Graphs ........................................... 169
   Ka Wong Chong and Christos Zaroliagis

Weighted Random Sampling over Data Streams ....................... 183
   Pavlos S. Efraimidis

Random Instances of Problems in NP – Algorithms and Statistical Physics .... 196
   Charilaos Efthymiou

A Selective Tour Through Congestion Games. ........................ 223
   Dimitris Fotakis

Data-Streaming and Concurrent Data-Object Co-design: Overview and Algorithmic Challenges .......................... 242
   Vincenzo Gulisano, Yiannis Nikolakopoulos, Marina Papatriantafilou, and Philippas Tsigas

Stability in Heterogeneous Dynamic Multimedia Networks ............... 261
   Dimitrios Koukopoulos

Advances in the Parallelization of the Simplex Method ................... 281
   Basilis Mamalis and Grammati Pantziou

An Introduction to Temporal Graphs: An Algorithmic Perspective ........... 308
   Othon Michail

Random Surfing Without Teleportation ................................... 344
   Athanasios N. Nikolakopoulos and John D. Garofalakis

Of Concurrent Data Structures and Iterations ........................... 358
   Yiannis Nikolakopoulos, Anders Gidenstam, Marina Papatriantafilou, and Philippas Tsigas

On Some Combinatorial Properties of Random Intersection Graphs ........ 370
   Sotiris E. Nikoletseas and Christoforos L. Raptopoulos

Efficient Equilibrium Concepts in Non-cooperative Network Formation .... 384
   Panagiota N. Panagopoulou

Simple Parallel Algorithms for Dynamic Range Products .................. 396
   Christos Zaroliagis

Author Index ........................................................................ 409
Algorithms, Probability, Networks, and Games
Scientific Papers and Essays Dedicated to Paul G. Spirakis on the Occasion of His 60th Birthday
Zaroliagis, C.; Pantziou, G.; Kontogiannis, S. (Eds.)
2015, XVI, 409 p. 64 illus. in color., Softcover
ISBN: 978-3-319-24023-7
