## Contents

### Part I  Wine Safety

1  Undesirable Compounds and Spoilage 
   Microorganisms in Wine ............................................. 3  
   Aline Lonvaud-Funel

2  Utilisation of Natural and By-Products to Improve Wine Safety .... 27  
   Francisco M. Campos, José António Couto, and Tim Hogg

3  Applications of Nanotechnology in Wine Production  
   and Quality and Safety Control .................................... 51  
   Miguel Monge and M. Victoria Moreno-Arribas

4  Genetic Improvement and Genetically Modified  
   Microorganisms ......................................................... 71  
   Ramon Gonzalez, Jordi Tronchoni, Manuel Quirós, and Pilar Morales

5  Global Climate Change and Wine Safety .......................... 97  
   Matteo Marangon, Alistair Nesbitt, and Tony Milanowski

### Part II  Wine Consumer Preferences

6  Wine Quality Perception: A Sensory Point of View ............... 119  
   María-Pilar Sáenz-Navajas, Jordi Ballester,  
   Purificación Fernández-Zurbano, Vicente Ferreira,  
   Dominique Peyron, and Dominique Valentin

7  Wine Preference and Wine Aroma Perception ........................ 139  
   Maria Ángeles Pozo-Bayón, Carolina Muñoz-González,  
   and Adelaida Esteban-Fernández

8  Dealcoholised Wines and Low-Alcohol Wines ....................... 163  
   Fernando Zamora
9 Sustainability and Organic Wine Production .......................... 183
Monica Laureati and Ella Pagliarini

10 Dietary Supplements/Nutraceuticals Made from Grapes and Wines ........................................... 201
Vasil Georgiev, Anthony Ananga, and Violeta Tsolova

Part III Wine and Health

11 Mechanism of the Protective Effects of Wine Intake on Cardiovascular Disease ........................................... 231
Rosa M. Lamuela-Raventós and Ramón Estruch

12 Role of Wine Components in Inflammation and Chronic Diseases .................................................. 241
Creina S. Stockley

13 Interactions Between Wine Polyphenols and Gut Microbiota ...................................................... 259
Carolina Cueva, Irene Gil-Sánchez, M. Victoria Moreno-Arribas, and Begoña Bartolomé

14 Neuroprotective Effects Associated with Wine and Its Phenolic Constituents ......................................... 279
Adelaida Esteban-Fernández, Giulia Corona, David Vauzour, and Jeremy P.E. Spencer

15 Metabolomic Approaches in the Study of Wine Benefits in Human Health .............................................. 293
Olha Khymenets, Rosa Vázquez-Fresno, Magali Palau-Rodriguez, Rafael Llorach, Mireia Urpí-Sardà, Mar García-Aloy, Sara Tulipani, Ascensión Lupianez-Barbero, and Cristina Andres-Lacueva

Index ......................................................... 319
Wine Safety, Consumer Preference, and Human Health
Moreno-Arribas, M.V.; Bartolomé Suáldea, B. (Eds.)
2016, XIV, 323 p. 36 illus., 12 illus. in color., Hardcover
