

Contents

1	What Is a Real Intelligent Envelope?	1
1.1	Definition of Intelligence	1
1.2	Stages of the Intelligent Process	2
1.3	Applying Artificial Intelligence to Objects	8
1.4	Intelligent and Responsive Architectural Envelopes	13
1.5	Types of Inputs and Responses for the Intelligent Envelope.	15
	References.	19
2	History and State of the Art.	21
2.1	Early Developments and Postulates	21
2.2	Historical Points of View for Intelligent Building Envelopes	24
	2.2.1 The Highly Mechanized Envelope	24
	2.2.2 The Naturalistic Envelope.	29
2.3	Recent Developments and Examples	31
	2.3.1 The Integrative View.	31
2.4	Classification System for Intelligent Envelope Components	34
	2.4.1 Class A—Perception/Input Elements.	34
	2.4.2 Class B—Control Processing Elements.	35
	2.4.3 Class C—Actuator Elements.	39
2.5	Comparison of Two Smart Actuator Systems	42
	2.5.1 Lighting Redirection Systems and Their Calculation.	43
	2.5.2 Smart Shading Systems and Their Implementation Process	45
	References.	48
3	Design Considerations.	51
3.1	Stages of the Architectural Design Process of an Intelligent Envelope and Impact on Performance.	51
3.2	Architectural Design Strategies for Intelligent Envelopes	52
3.3	Impact of Design Decisions Due to the Addition of Intelligence.	55

- 3.4 Difference Between the Architectural Design Process
of Intelligent Envelopes for New and Retrofit Buildings 62
- 3.5 How to Form Design Strategies 63
- 3.6 The Self-shading Building Envelope. 70
- 3.7 Considering Intelligence for a Good Design. 77
- References. 78
- 4 Design Tools 81**
 - 4.1 Brief Overview of Existing Design Tools. 81
 - 4.2 Tool Classification 82
 - 4.3 Tools Providing Basic Guidelines. 82
 - 4.4 Generation Tools 84
 - 4.5 Generation Tools Incorporated in Existing Programs:
SunTools as Case Study. 86
 - 4.6 Single-Aspect Evaluation Tools 90
 - 4.7 Single Aspect Evaluation Tools: The Lighting
Simulation Case 92
 - 4.8 Tools for Whole-Building Simulation. 94
 - 4.9 Other Tools 96
 - 4.10 Design Suggestion Tools 97
 - 4.11 NewFacades: Advice Tool for Early Design Stages
of Intelligent Envelopes 98
 - 4.12 Conclusions About the Tools 102
 - References. 103
- 5 Application Examples 107**
 - 5.1 Scenario One: New Office Building 107
 - 5.2 Considerations for Alternative Selection in a New Project 112
 - 5.3 Scenario Two: Residential Building Retrofit. 114
 - 5.4 Considerations for Element Selection in a Retrofit Project 126
 - References. 127
- Conclusions—The Intelligent Envelope, Where To? 129**
- Index 133**

Intelligent Envelopes for High-Performance Buildings

Design and Strategy

Capeluto, G.; Ochoa, C.E.

2017, VIII, 134 p. 51 illus., 42 illus. in color., Hardcover

ISBN: 978-3-319-39254-7
