Contents – Part I

Designing for and with the Elderly

Technologically Mature but with Limited Capabilities .......................... 3
Yvonne Eriksson

Designing Poker Time: Older People as Fixpartners in a Co-design Process ... 13
Linna Hu and Hua Dong

A Preliminary Exploration of Technology Necessities Among Elderly Living Alone ................................................. 23
Lin-Ya Huang and Chang-Franw Lee

Understanding the Critical Needs of Older People: An Aging Perspective ... 32
Ying Jiang, Timothy Joseph Jachna, and Hua Dong

Designing Tablet Computers for the Elderly A User-Centered Design Approach ..................................................... 42
Nicole Jochems

Lowering the Threshold: Reconnecting Elderly Users with Assistive Technology Through Tangible Interfaces ......................... 52
Suhas Govind Joshi and Heidi Bråthen

Development of the Accessibility Evaluation Platform Beyond Digital Divide .......................................................... 64
Junji Ohyama

Scaffolding Digital Game Design Activities Grouping Older Adults, Younger Adults and Teens ................................. 74
Margarida Romero and Hubert Ouellet

RERC TechSAge: Making a Difference to the Lives of Older Adults with Disability Through Design and Technology .......... 82
Jon A. Sanford and Elena T. Gonzalez

To Meet the Needs of Aging Users and the Prerequisites of Innovators in the Design Process: Lessons Learned from Three Pilot Projects .................... 92
Marie Sjölinder, Isabella Scandurra, Anneli Avatare Nöü, and Ella Kolkowska

HCI Challenges for Consumer-Based Aging in Place Technologies ........ 105
Marjorie Skubic, Anup Mishra, Bradford Harris, Carmen Abbott, Andrew Craver, Katy Musterman, and Marilyn Rantz
Towards Characteristics of Accessibility and Usability Issues for Older People - A Brazilian Case Study .............................. 117
  Sandra Souza Rodrigues, Renata Pontin de Mattos Fortes,  
  and André Pimenta Freire

Board Games and Regulars’ Tables — Extending User Centred Design in the Mobia Project .................................................. 129
  Johannes Tröger, Jan Alexandersson, Jochen Britz, Maurice Rekrut,  
  Daniel Bieber, and Kathleen Schwarz

User Involvement in Design: The Four Models .......................... 141
  Bin Zhang and Hua Dong

Technology Use and Acceptance by Older Users

Risk and Benefit Perceptions: Resistance, Adoption and Uses of ICT Among the Italian Elderly .............................................. 155
  Simone Carlo and Matteo Vergani

A Tale of Two Divides: Technology Experiences Among Racially and Socioeconomically Diverse Older Adults .......................... 167
  Shelia R. Cotten, Jessica Francis, Travis Kadylak, R.V. Rikard,  
  Tim Huang, Christopher Ball, and Julia DeCook

The Role of Technology in Supporting Family Caregivers ................ 178
  Sara J. Czaja, Dolores Perdomo, and Chin Chin Lee

Acceptance of Cloud-Based Healthcare Services by Elderly Taiwanese People ................................................................. 186
  Wen-Tsung Ku and Pi-Jung Hsieh

Over 60 and ICT: Exploring Factors that Affect Older Adults’ ICTs Usage ................................................................. 196
  Qi Ma, Alan Hoi Shou Chan, Pei-Lee Teh, and Shun-Nam Poon

The Role of Technology Self-efficiency on Technology Product Acceptance and Usage: A Study on Chinese Older People ............. 209
  Jing Pan, Hua Dong, and Weining Ning

The Transformation of Reading Among the Ageing Population in the Digital Age ......................................................... 216
  Dobrinka Peicheva and Lilia Raycheva

Changing Patterns of ICT Use in Finland – The Senior Citizens’ Perspective ....................................................................... 226
  Pekka Räsänen and Ilkka Koiranen

Elders’ Perceptions on the Role of ICTs on Their Lives .................. 238
  Charo Sádaba
A Usability Research for Developing and Deploying Chronic Pain Relief Treatment Applications for Older Adults .......................................................... 245
Wang-Chin Tsai, Chia-Ling Chang, and Cheng-Min Tsai

Understanding Age-Related Differences in Privacy-Safety Decisions: Acceptance of Crime Surveillance Technologies in Urban Environments .................................................. 253
Julia van Heek, Katrin Arning, and Martina Ziefle

Intentions to Use Smart Textiles in AAL Home Environments: Comparing Younger and Older Adults ...................................................................................... 266
Martina Ziefle, Philipp Brauner, and Julia van Heek

Psychological and Cognitive Aspects of Interaction and Aging

Interactive, Multi-device Visualization Supported by a Multimodal Interaction Framework: Proof of Concept ................................................................................... 279
Nuno Almeida, Samuel Silva, Beatriz Sousa Santos, and António Teixeira

The Gamification of Cognitive Training: Older Adults’ Perceptions of and Attitudes Toward Digital Game-Based Interventions .................................................. 290
Walter R. Boot, Dustin Souders, Neil Charness, Kenneth Blocker, Nelson Roque, and Thomas Vitale

Age-Differentiated Analysis of the Hand Proximity Effect by Means of Eye-Tracking .......................................................................................... 301
Christina Bröhl, Sabine Theis, Matthias Wille, Peter Rasche, Alexander Mertens, and Christopher M. Schlick

Combinations of Modalities for the Words Learning Memory Test Implemented on Tablets for Seniors ............................................................................ 309
Erika Hernández-Rubio, Amilcar Meneses-Viveros, Erick Mancera-Serralde, and Javier Flores-Ortiz

Exploring the Antecedents of Technostress and Compulsive Mobile Application Usage: Personality Perspectives .................................................. 320
Kuo-Lun Hsiao, Chun-Hsiung Lee, Hsiu-Sen Chiang, and Ju-Yun Wang

Impact of Website Complexity and Task Complexity on Older Adult’s Cognitive Workload on Mobile Devices .................................................. 329
Jincheng Huang and Jia Zhou

Experiencing Computer Anxiety Later in Life: The Role of Stereotype Threat .......................................................................................... 339
Loredana Ivan and Ioana Schiau

Control with Hand Gestures by Older Users: A Review ........................................................................ 350
Sheau-Farn Max Liang and Yun-Ju Becker Lee
A Preliminary Study on How the Icon Composition and Background of Graphical Icons Affect Users’ Preference Levels

Hsuan Lin, Yu-Chen Hsieh, and Wei Lin

360

Tests of Cognitive Training as Archetypes in Elderly People: Identifying Design Categories for Cognitive and Communicative Interaction

Claudia Isabel Rojas R. and Juan Alberto Castillo M.

371

Eye Movements on Assessing Perceptual Image Quality

Cheng-Min Tsai, Shing-Sheng Guan, and Wang-Chin Tsai

378

A Study of Human Behavior and Mental Workload Based on Neural Network

Lan Xiao, Jing Qiu, and Jun Lu

389

Mobile and Wearable Technologies for the Elderly

Designing a Smart Watch Interface for a Notification and Communication System for Nursing Homes

Haneen Ali and Huiyang Li

401

Tactile Interaction for Novice User: Uncolocated Gestures

Denis Chêne, Vincent Pillot, and Marc-Éric Bobillier Chaumon

412

Mobile Technology for Older Adults: Protector, Motivator or Threat?

Lynne Coventry and Pam Briggs

424

The Effect of Screen Size of Mobile Devices on Reading Efficiency

Yu-Chen Hsieh, Chien-Ting Kuo, and Hsuan Lin

435

Design of Smart Watch for Old People Based on the Benchmark of Consumers’ Kansai Intention

He Huang, Yixiang Wu, Jianxin Cheng, and Minggang Yang

446

A Study of the Factors Affecting the Usability of Smart Phone Screen Protectors for the Elderly

Shuo-Fang Liu, Ching-Fen Chang, Ming-Hong Wang, and Hsin-Hsi Lai

457

Effect of Icon Amount and Visual Density on Usability of Smartwatches

Fan Mo, Shuping Yi, and Jia Zhou

466

Generational Comparison of Simultaneous Internet Activities Using Smartphones and Computers

Andrea Rosales and Mireia Fernández-Ardèvol

478
Using the Smartphone to Support Successful Aging: Technology Acceptance with Selective Optimization and Compensation
Among Older Adults ................................................................. 490

*Yao Sun, Margaret L. McLaughlin, and Michael J. Cody*

**Author Index** ................................................................. 501
Contents – Part II

Smart and Assistive Environments

Design Research on Self-service Medical Apparatus and Instruments
Aiming at Elderly Users. ................................................................. 3
Jieqiong Huang

Gamification and Information Fusion for Rehabilitation:
An Ambient Assisted Living Case Study ................................. 16
Javier Jiménez Alemán, Nayat Sanchez-Pi, Luis Martí,
José Manuel Molina, and Ana Cristina Bicharra Garcia

Dynamic Characteristics of the Transformation of Interpersonal Distance
in Cooperation ................................................................. 26
Yosuke Kinoe and Nami Mizuno

Analysis of Elderly Users’ Preferences and Expectations on Service
Robot’s Personality, Appearance and Interaction .................. 35
Styliani Kleanthous, Christophoros Christophorou, Christiana Tsiourti,
Carina Dantas, Rachelle Wintjens, George Samaras,
and Eleni Christodoulou

Socio-Technical Challenges in Implementation of Monitoring Technologies
in Elderly Care ................................................................. 45
Ella Kolkowska, Anneli Avatare Nöu, Marie Sjölinder,
and Isabella Scandurra

Developing BIM-Enabled Facility Management Information System
in Interior Design ................................................................. 57
Ju-Hung Lan

A Study on Re-usage of Historical Building - from the Aspect of Room
Acoustic for Live House .............................................................. 70
Wei Lin, Hsuan Lin, Kung-Huang Huang, and Tin-Hang Lin

Identification of an Individual’s Frustration in the Work Environment
Through a Multi-sensor Computer Mouse .............................. 79
David Portugal, Marios Belk, João Quintas, Eleni Christodoulou,
and George Samaras

Multi-sensory Cyber-Physical Therapy System for Elderly Monitoring .... 89
Md. Abdur Rahman
