Contents

The Route Less Taken: The Homegrown Los Alamos Integrated Computer Network ......................................................... 1
  Nicholas Lewis

MONET – Monash University’s Campus LAN in the 1980s – A Bridge to Better Networking .................................................... 23
  Barbara Ainsworth, Neil Clarke, Chris Avram, and Judy Sheard

Technology vs. Political Conflict – How Networks Penetrate the Iron Curtain ................................................................. 49
  Frank Dittmann

There and Back Again – Andrew Booth, a British Computer Pioneer, and his Interactions with US and Other Contemporaries ............ 58
  Roger G. Johnson

‘Machines à Comparer les Idées’ of Semen Korsakov: First Step Towards AI ................................................................. 71
  Valery V. Shilov and Sergey A. Silantiev

Towards Machine Independence: From Mechanically Programmed Devices to the Internet of Things ........................................... 87
  Arthur Tatnall and Bill Davey

The Global Virtual Museum of Information Science & Technology, a Project Idea ............................................................ 101
  Giovanni A. Cignoni and Giovanni A. Cossu

Why not OSI? .................................................................................................................. 115
  Bill Davey and Robert F. Houghton

Flame Wars on Worldnet: Early Constructions of the International User ................................................................. 122
  Christopher Leslie

The Code of Banking: Software as the Digitalization of German Savings Banks .......................................................... 141
  Martin Schmitt

Electronic “Ambassador”: The Diplomatic Missions of IBM’s RAMAC 305 ................................................................. 165
  Evangelos Kotsioris
The Birth of Artificial Intelligence: First Conference on Artificial Intelligence in Paris in 1951? .............................. 181

Herbert Bruderer

The World’s Smallest Mechanical Parallel Calculator: Discovery of Original Drawings and Patent Documents from the 1950s in Switzerland. .......................................................... 186

Herbert Bruderer

Author Index .............................................................. 193
International Communities of Invention and Innovation
IFIP WG 9.7 International Conference on the History of Computing, HC 2016, Brooklyn, NY, USA, May 25-29, 2016, Revised Selected Papers
Tatnall, A.; Leslie, C. (Eds.)
2016, XII, 193 p. 57 illus., Hardcover
ISBN: 978-3-319-49462-3
