Contents

1 What Are Emotions? ................................................. 1
  1.1 Main Concept ................................................. 1
  1.2 Substantial Unit or Coordination of Components? .......... 1
  1.3 Definition of Emotion ........................................ 3
  1.4 Measuring Emotions .......................................... 3
  1.5 Functions of Emotions: Selective Drivers .................. 3
  1.6 Causes of Emotions and the Question of Consciousness . 4
  1.7 Unconscious Emotions. Øhman and
     Soares’ (1994) Study .......................................... 5
  1.8 A Subcortical Early Warning System ......................... 6
  1.9 Basic and Social Emotions .................................... 7
  1.10 Practical Relevance .......................................... 8
  1.11 Summary ..................................................... 8

2 Facial Expressions ................................................ 9
  2.1 The Human Face ............................................. 9
  2.2 The Facial Expressions ....................................... 9
  2.3 What Do Facial Expressions Represent? ..................... 11
  2.4 The Facial Feed-Back Hypothesis ............................ 13
  2.5 Universal Facial Expressions ................................. 13
  2.6 Facial Expressions as Subcortical Stimulation: Dimberg,
     Thuernberg, & Elmehed’s (2000) Study ..................... 14
  2.7 Practical Relevance .......................................... 16
  2.8 Summary ..................................................... 16

3 Individual Emotions ............................................. 19
  3.1 Positive Emotions: Happiness, Interest, and Surprise .... 19
     3.1.1 Happiness ............................................ 19
     3.1.2 Interest .............................................. 20
     3.1.3 Surprise .............................................. 20
  3.2 Negative Emotions: Sadness, Anger, Disgust,
     Contempt, Shame and Guilt .................................. 20
     3.2.1 Sadness .............................................. 20
     3.2.2 Anger ................................................. 21
     3.2.3 Fear ................................................ 21
     3.2.4 Disgust ............................................. 21
     3.2.5 Contempt ............................................ 21
     3.2.6 Shame .............................................. 22
     3.2.7 Guilt ............................................... 22
3.3 Other Emotions: Pride, Envy, and Jealousy .......................... 22
  3.3.1 Pride ........................................... 22
  3.3.2 Envy ........................................... 23
  3.3.3 Jealousy ....................................... 23
3.4 Practical Relevance .............................................. 23
3.5 Summary .................................................. 24

4 Personal Indications ................................................ 25
  4.1 The Experience of Emotion: Emotions as Truth ....................... 25
  4.2 The Experience of Physiological Signals ............................. 26
  4.3 The Intensity Dimension ....................................... 27
  4.4 Emotions and the Self. Emotion as Traits and Resonance .......... 28
  4.5 Fear of Emotions ......................................... 29
  4.6 Emotion as Community: Emotional Contagion ....................... 29
  4.7 The Need to Talk About Emotions: Social Sharing .................. 30
  4.8 Practical Relevance ......................................... 30
  4.9 Summary ................................................ 31

5 Development of Emotions ............................................ 33
  5.1 The First Year: From Basic to Ordinary Emotions ................. 33
      5.1.1 The First Two–Three Months ........................ 33
      5.1.2 The Experiential Object and Three Types of Emotion .... 34
      5.1.3 Emotional Communication, Analog Emotional Language, and Social Referencing .......................... 35
  5.2 The Second Year: Self-conscious Emotions .......................... 36
  5.3 Development in the Third to Fourth Year .......................... 36
  5.4 Further Development ......................................... 36
  5.5 Understanding Emotions ....................................... 37
  5.6 Practical Relevance ......................................... 37
  5.7 Summary ................................................ 38

6 Emotion and Cognition ................................................ 41
  6.1 Emotions as Result of Cognition: Appraisal Theory ............... 41
      6.1.1 Lazarus and Alfert’s Study .......................... 41
      6.1.2 Dimensions of Appraisal ............................. 42
  6.2 Cognition as Result of Emotion ................................ 43
      6.2.1 Effect of Emotions on Memory ....................... 43
      6.2.2 Effect of Emotions on Other Cognitive Processes .... 45
  6.3 Reason and Emotion .......................................... 46
  6.4 Practical Relevance ......................................... 47
  6.5 Summary ................................................ 47

7 Emotions and Health ................................................ 49
  7.1 Mental Health .............................................. 49
  7.2 Physical Health .............................................. 50
  7.3 Three Systems in the Body’s Response to Emotional Stress ....... 50
  7.4 Repression and the Question Whether Emotions Should Be Suppressed or Displayed Openly .... 51
