6 Constrained Games Without Convexity–Concavity Assumptions ............................................... 229
6.1 Preliminaries ............................................ 229
6.2 Main Results ........................................... 234
6.3 Proofs of Theorems 6.4 and 6.5 ......................... 238
6.4 Proof of Theorem 6.6 .................................... 241
6.5 Proof of Theorem 6.7 .................................... 242
6.6 Auxiliary Results ........................................ 245
6.7 Proofs of Theorems 6.8 and 6.9 ......................... 260
6.8 Proofs of Theorems 6.10 and 6.11 ...................... 262
6.9 Examples ............................................... 267

7 Nonautonomous Games with Convexity–Concavity Assumptions ............................................... 273
7.1 Preliminaries ............................................ 273
7.2 Proof of Theorem 7.4 .................................... 276
7.3 A Space of Objective Functions .......................... 278
7.4 Turnpike Results ....................................... 281
7.5 Auxiliary Results for Theorem 7.8 ....................... 283
7.6 Proof of Theorem 7.8 .................................... 291
7.7 Proof of Theorem 7.9 .................................... 293

8 Constrained Games with Convexity–Concavity Assumptions ............................................... 303
8.1 Preliminaries ............................................ 303
8.2 Turnpike Properties ..................................... 313
8.3 Auxiliary Results for Theorems 8.5 and 8.6 ............ 319
8.4 Proof of Theorem 8.5 .................................... 328
8.5 Proof of Theorem 8.6 .................................... 329
8.6 Infinite Horizon Games .................................. 333
8.7 Proofs of Theorems 8.11 and 8.12 ...................... 334
8.8 Proofs of Theorems 8.13 and 8.14 ...................... 340
8.9 Uniqueness of Overtaking Optimal Solutions .......... 343
8.10 Turnpike Properties for Games with Discounting .... 345
8.11 Auxiliary Results for Theorem 8.19 ................. 346
8.12 Proof of Theorem 8.19 .................................. 352
8.13 Convergence of Overtaking Optimal Solutions for Games with Discounting ......................... 355
