Contents

1 On the “Complex” Interplay Between Mathematics and Living Systems ........................................ 1
   1.1 Introduction .......................................... 1
   1.2 A Quest Through Three Scientific Contributions .......... 3
   1.3 Five Key Questions .................................... 5
   1.4 Complexity Features of Living Systems ..................... 5
   1.5 Rationale Toward Modeling and Plan of the Book .......... 11

2 A Brief Introduction to the Mathematical Kinetic Theory of Classical Particles .......................... 15
   2.1 Plan of the Chapter ..................................... 15
   2.2 Phenomenological Derivation of the Boltzmann Equation .... 16
       2.2.1 Interaction dynamics .............................. 19
       2.2.2 The Boltzmann equation ........................... 20
       2.2.3 Properties of the Boltzmann equation ................. 23
   2.3 Some Generalized Models .................................. 25
       2.3.1 The BGK model ................................. 26
       2.3.2 The discrete Boltzmann equation ............... 26
       2.3.3 Vlasov and Enskog equations ............... 28
   2.4 Computational Methods ................................... 30
   2.5 Critical Analysis ....................................... 31

3 On the Search for a Structure: Toward a Mathematical Theory to Model Living Systems ................. 33
   3.1 Plan of the Chapter ..................................... 33
   3.2 A Representation of Large Living Systems .................. 35
   3.3 Mathematical Structures for Systems with Space Homogeneity .. 39
       3.3.1 A phenomenological description of games .......... 39
       3.3.2 Modeling interactions by tools of game theory ...... 42
       3.3.3 Mathematical structures for closed systems .......... 44
A Quest Towards a Mathematical Theory of Living Systems
Bellomo, N.; Bellouquid, A.; Gibelli, L.; Outada, N.
2017, XIII, 181 p. 30 illus., 27 illus. in color., Hardcover
ISBN: 978-3-319-57435-6
A product of Birkhäuser Basel
