Contents

12th International Workshop on Business Process Intelligence (BPI 2016)

Introduction to the 12th International Workshop on Business Process Intelligence (BPI 2016) ................................................................. 2
Boudewijn F. van Dongen, Jochen De Weerdt, Andrea Burattin, and Jan Claes

Summary of the Business Process Intelligence Challenge (BPI Challenge 2016) ................................................................. 5
Marcus Dees and Boudewijn F. van Dongen

Summary of the Process Discovery Contest 2016 ................................................................. 7
Josep Carmona, Massimiliano de Leoni, Benoît Depaire, and Toon Jouck

Mining Reference Process Models from Large Instance Data ................................................................. 11
Jana-Rebecca Rehse and Peter Fettke

A Framework for Interactive Multidimensional Process Mining ................................................................. 23
Thomas Vogelgesang, Stefanie Rinderle-Ma, and H.-Jürgen Appelrath

Parallelization of Transition Counting for Process Mining on Multi-core CPUs and GPUs ................................................................. 36
Diogo R. Ferreira and Rui M. Santos

Multi-objective Trace Clustering: Finding More Balanced Solutions ................................................................. 49
Pieter De Koninck and Jochen De Weerdt

Simulation of Multi-perspective Declarative Process Models ................................................................. 61
Lars Ackermann, Stefan Schönig, and Stefan Jablonski

Model Checking of Mixed-Paradigm Process Models in a Discovery Context: Finding the Fit Between Declarative and Procedural ................................................................. 74
Johannes De Smedt, Claudio Di Ciccio, Jan Vanthienen, and Jan Mendling

First Workshop on Business Process Management and Ontologies (BPMO 2016)

Introduction to the First Workshop on Business Process Management and Ontologies (BPMO 2016) ................................................................. 88
Henrik Leopold, Lucinéia Heloisa Thom, and Pablo David Villarreal
PROMPTUM Toolset: Tool Support for Integrated Ontologies and Process Models. .......................... 93
Ahmet Coşkunçay, Özge Gürbüz, Onur Demirörs,
and Erdem Eser Ekinci

Ontology-Based Heuristics for Process Behavior: Formalizing False Positive Scenarios ........................................ 106
Jorge Roa, Emiliano Reynares, María Laura Caliusco,
and Pablo Villarreal

Business Process Architecture Baselines from Domain Models ............. 118
Fernanda Gonzalez-Lopez and Guillermo Bustos

Ontology-Based Approach for Heterogeneity Analysis of EA Models ....... 131
João Cardoso, Marzieh Bakhshandeh, Daniel Faria, Cátia Pesquita,
and José Borbinha

9th International Workshop on Business Process Management and Social Software (BPMS2 2016)

Introduction to the BPMS2 Workshop 2016 ....................................... 144
Rainer Schmidt and Selmin Nurcan

When Cognitive Biases Lead to Business Process Management Issues ...... 147
Maryam Razavian, Oktay Turetken, and Irene Vanderfeesten

Challenges in Business Processes Modeling – Is Agile BPM a Solution? .... 157
Rüdiger Weißbach, Kathrin Kirchner, Felix Reher, and Robert Heinrich

Jan Claes, Irene Vanderfeesten, Frederik Gailly, Paul Grefen,
and Geert Poels

Designing Serious Games for Citizen Engagement in Public Service Processes .................................................. 180
Nicolas Pflanzl, Tadeu Classe, Renata Araujo, and Gottfried Vossen

4th International Workshop on Decision Mining and Modeling for Business Processes (DeMiMoP’16)

Introduction to the 4th International Workshop on Decision Mining and Modeling for Business Processes (DeMiMoP’16) ................. 194
Jan Vanthienen, Hajo A. Reijers, and Claudio Di Cicco
Decision Mining in a Broader Context: An Overview of the Current Landscape and Future Directions ........................................... 197
Johannes De Smedt, Seppe K.L.M. vanden Broucke, Josue Obregon, Aekyung Kim, Jae-Yoon Jung, and Jan Vanthienen

Governance Knowledge Management and Decision Support Using Fuzzy Governance Maps .................................................. 208
José Miguel Pérez-Álvarez, María Teresa Gómez-López, Angel Jesús Varela-Vaca, Fco. Fernando de la Rosa Troyano, and Rafael M. Gasca

2nd International Workshop on Process Engineering (IWPE 2016)

Introduction to the Second International Workshop on Process Engineering (IWPE 2016) .................................................. 222
Mathias Weske and Manfred Reichert

Case Management in the Age of Analytics and Data-Driven Insights (Invited Talk) .............................................................. 225
Boualem Benatallah

Extending Fragment-Based Case Management with State Variables ................................................................. 227
Heiko Beck, Marcin Hewelt, and Luise Pufahl

Guiding the Creation of Choreographed Processes with Multiple Instances Based on Data Models ............................................. 239
María Teresa Gómez-López, José Miguel Pérez-Álvarez, Angel Jesús Varela-Vaca, and Rafael M. Gasca

Redefining a Process Engine as a Microservice Platform ................................................................. 252
Antonio Manuel Gutiérrez-Fernández, Manuel Resinas, and Antonio Ruiz-Cortés

Providing Semantics to Implement Aspects in BPM ................................................................. 264
Hércules S.S. José, Filipe Esteves Gonçalves, Claudia Cappelli, and Flávia Maria Santoro

First International Workshop on Process Querying (PQ 2016)

Introduction to the First International Workshop on Process Querying (PQ 2016) .............................................................. 278
Artem Polyvyanyy and Arthur H.M. ter Hofstede

Process Model Search Using Latent Semantic Analysis ................................................................. 283
Andreas Schoknecht, Nicolai Fischer, and Andreas Oberweis
Contents

Everything You Always Wanted to Know About Your Process, but Did Not Know How to Ask ........................................ 296
Eduardo González López de Murillas, Hajo A. Reijers, and Wil M.P. van der Aalst

A Comparative Analysis of Business Process Model Similarity Measures . . . 310
Tom Thaler, Andreas Schoknecht, Peter Fettke, Andreas Oberweis, and Ralf Laue

First International Workshop on Runtime Analysis of Process-Aware Information Systems (PRAISE2016)

The First International Workshop on Runtime Analysis of Process-Aware Information Systems (PRAISE2016) ........................................ 324
Mustafa Hashmi, Guido Governatori, Huy Tran, and Uwe Zdun

A Deep Learning Approach for Predicting Process Behaviour at Runtime . . . 327
Joerg Evermann, Jana-Rebecca Rehse, and Peter Fettke

Behavioral Classification of Business Process Executions at Runtime . . . . 339
Nick R.T.P. van Beest and Ingo Weber

First Workshop on Resource Management in Business Processes (REMA 2016)

Introduction to the First Workshop on Resource Management in Business Processes (REMA 2016) ........................................ 356
Cristina Cabanillas, Manuel Resinas, Alex Norta, and Nanjangud C. Narendra

Towards Simulation- and Mining-based Translation of Resource-aware Process Models ........................................ 359
Lars Ackermann, Stefan Schöning, and Stefan Jablonski

Transforming Multi-role Activities in Software Processes into Business Processes ........................................ 372
Juan Pulgar and María Cecilia Bastarrica

A Multi-criteria Approach for Team Recommendation . . . . . . . . . . . . . . . . . . . . . . . . . 384
Michael Arias, Jorge Munoz-Gama, and Marcos Sepúlveda

First Workshop Sustainability-Aware Business Process Management (SA-BPM’2016)

Introduction to the Workshop Sustainability-Aware Business Process Management (SA-BPM’2016) ........................................ 398
Stefanie Betz, Leticia Duboc, and Andréa Magalhães Magdaleno
Integrating Sustainability Aspects in Business Process Management . . . . . . . 403
Selim Larsch, Stefanie Betz, Leticia Duboc,
Andréa Magalhães Magdaleno, and Camilla Bomfim

Supporting Municipal Greenhouse Gas (GHG) Emission Inventories
Using Business Process Modeling: A Case Study of Trondheim
Municipality . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 416
Dirk Ahlers, John Krogstie, Patrick Driscoll, Hans-Einar Lundli,
Simon-James Loveland, Carsten Rothballer, and Annemie Wyckmans

Sustainability Patterns for the Improvement of IT-Related Business
Processes with Regard to Ecological Goals. . . . . . . . . . . . . . . . . . . . . . . . . . . 428
Patrick Lübbecke, Peter Fettke, and Peter Loos

How to Incorporate Sustainability into Business Process
Management Lifecycle? . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 440
Andréa Magalhães Magdaleno, Leticia Duboc, and Stefanie Betz

5th International Workshop on Theory and Application of Visualizations
and Human-centric Aspects in Processes

Introduction to the 5th International Workshop on Theory and Application
of Visualizations and Human-centric Aspects in Processes . . . . . . . . . . . . . . 446
Ross Brown, Simone Kriglstein, and Stefanie Rinderle-Ma

Visualization of the Evolution of Layout Metrics for Business
Process Models. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 449
Cornelia Haisjackl, Andrea Burattin, Pnina Soffer, and Barbara Weber

Eye Tracking Meets the Process of Process Modeling:
A Visual Analytic Approach. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 461
Andrea Burattin, Michael Kaiser, Manuel Neurauter,
and Barbara Weber

Visually Comparing Process Dynamics with Rhythm-Eye Views . . . . . . . . 474
Jens Gulden

Author Index . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 487
