Contents

Designing and Evaluating Distributed, Ambient and Pervasive Interactions

What Changes from Ubiquitous Computing to Internet of Things in Interaction Evaluation? .................................................. 3
Rossana M.C. Andrade, Rainara M. Carvalho, Italo Linhares de Araújo, Káthia M. Oliveira, and Marcio E.F. Maia

Evaluating an IoT Application Using Software Measures ...................... 22
Rainara M. Carvalho, Rossana M.C. Andrade, Jefferson Barbosa, Adyson M. Maia, Belmondo A. Junior, Paulo A. Aguilar, Carla I.M. Bezerra, and Káthia M. Oliveira

Service Design Strategy for Social Internet of Things in China ............ 34
Jiajia Chen

Design for Social Innovation Supported by Social Based Technologies ...... 45
Teresa Franqueira and Gonçalo Gomes

Social Impact of Enhanced Gaze Presentation Using Head Mounted Projection ............................................................... 61
David M. Krum, Sin-Hwa Kang, Thai Phan, Lauren Cairco Dukes, and Mark Bolas

Individuals’ Motivations to Adopt Smart Technologies for Tourism - Discrepancy Between Initial and Post Adoption .......... 77
Yongda Li

Usability Evaluation and Redesign of an IoE Portal .......................... 93
Lucía Satiko Nomiso, Eduardo Hideki Tanaka, and Daniel Augusto Guerra da Costa

‘Wizard of Oz’ Study for Controlling Living Room Lighting ............... 105
Jo Olsen and Jeremy Spaulding

Heuristics to Evaluate the Usability of Ubiquitous Systems ................ 120
Larissa C. Rocha, Rossana M.C. Andrade, Andreia L. Sampaio, and Valéria Lelli
Natural Interaction

Freehand Gesture-Based 3D Manipulation Methods for Interaction with Large Displays ................................................................. 145
  Paulo Dias, João Cardoso, Beatriz Quintino Ferreira, Carlos Ferreira, and Beatriz Sousa Santos

It Made More Sense: Comparison of User-Elicited On-skin Touch and Freehand Gesture Sets ................................................................. 159
  Hayati Havlucu, Mehmet Yarkin Ergin, İdil Bostan, Oğuz Turan Buruk, Tilbe Gökşun, and Oğuzhan Özcan

  Myunghee Lee, Gerard J. Kim, and Jeonghyun Baek

Design and Evaluation of Cross-Objects User Interface for Whiteboard Interaction ................................................................. 180
  Xiangdong A. Li, Preben Hansen, Xiaolong Lou, Weidong Geng, and Ren Peng

Experience Design of Social Interaction for Generation Y Based on Tangible Interaction ................................................................. 192
  Yan Shi, Yuhui Guo, Zheng Gong, Bing Yang, and Leijing Zhou

Propositions for a Mid-Air Interactions System Using Leap-Motion for a Collaborative Omnidirectional Immersive Environment .......................... 203
  Robin Vivian

Smart Cities

A Smart City Application for Sharing Up-to-date Road Surface Conditions Detected from Crowdsourced Data .................................... 219
  Kenro Aihara, Piao Bin, Hajime Imura, Atsuhiro Takasu, and Yuzuru Tanaka

Building a Platform Society Towards Sustainability Based on Internet-of-Things ................................................................. 235
  Hina Akasaki, Fumiko Ishizawa, Mizuki Sakamoto, and Tatsuo Nakajima

Knowledge-Based Approach to Modeling Urban Dynamics .................. 252
  Sonja Gievska and Petre Lameski

A Service Infrastructure for Human-Centered IoT-Based Smart Built Environments ................................................................. 262
  Denis Gračanin, Mohamed Handosa, and Hicham G. Elmongui
Contents XVII

Food Ordering Service System Design for Chinese Urban Commuters
Based on Internet of Things ........................................... 275
Xinhui Hong

Real-Time Visualization of the Degree of Indoor Congestion
with Smartphone-Based Participatory Sensing ................................. 286
Tomoya Kitazato, Kyoichi Ito, Keisuke Umezawa, Masaki Ito,
and Kaoru Sezaki

Radioactive Soundscape Project ......................................... 302
Hiroki Kobayashi and Hiromi Kudo

Civic Tech and Ambient Data in the Public Realm: Challenges
and Opportunities for Learning Cities and Smart Cities .................... 312
H. Patricia McKenna

Art and Cultural Heritage in Smart Environments

Intelligent Painting Based on Social Internet of Things ...................... 335
Zhiyong Fu, Jia Lin, Zhi Li, Wenjia Du, Jieye Zhang, and Shuxiong Ye

Guidance Method to Allow a User Free Exploration with a Photorealistic
View in 3D Reconstructed Virtual Environments ........................... 347
Sho Iwasaki, Takuji Narumi, Tomohiro Tanikawa, and Michitaka Hirose

Wearable AR Platform for K-Culture Time Machine ........................ 358
Eunseok Kim, Jungi Kim, Kihong Kim, Seungmo Hong, Jongwon Lee,
Noh-young Park, Hyerim Park, Hayun Kim, Jungwha Kim,
and Woontack Woo

Flyer Mapping in Art Museums: Acquiring Implicit Feedback
Using Physical Objects .................................................. 371
Tomoyo Sasao and Shin’ichi Konomi

The Construction of Art in Virtual Reality and Its Education ................. 380
Jin Sheng

Painting Image Classification Using Online Learning Algorithm ............. 393
Bing Yang, Jinliang Yao, Xin Yang, and Yan Shi

The Study and Application of Smart Art Community Service
with “ESPSAS” Internet of Things Platform ................................ 404
Jheng-Chun Yang and Su-Chu Hsu

Geometry-Aware Interactive AR Authoring Using a Smartphone
in a Wearable AR Environment ........................................... 416
Jeongmin Yu, Jinwoo Jeon, Jinwoo Park, Gabyong Park, Hyung-il Kim,
and Woontack Woo
# Smart Environments for Quality of Life

A Preliminary Study of Smart Seat Cushion Design ............................................... 427  
*Shijian Luo, Yun Wang, Yan Gong, Ge Shu, and Na Xiong*

Human-Sensing: Low Resolution Thermal Array Sensor Data Classification of Location-Based Postures ................................................................. 444  
*Bruno Pontes, Marcio Cunha, Rafael Pinho, and Hugo Fuks*

Ambient Information Design to Amplify Connections Between New Empty Nest Parents and Their Children ......................................................... 458  
*Zhenyu Cheryl Qian, Yue Ma, Yingjie Chen, Yafeng Niu, and Chengqi Xue*

Breath Is to Be Perceived - Breathing Signal Sharing Involved in Remote Emotional Communication ......................................................... 472  
*Xiaotian Sun and Kiyoshi Tomimatsu*

Development and Evaluation of a Non-obtrusive Patient Monitoring System with Smart Patient Beds ......................................................... 482  
*Ruben van Dijk, Weifeng Liang, Biyong Zhang, and Jun Hu*

Design of Internet Rehabilitation Service System with Individual Assessment Data for Autistic Children ......................................................... 491  
*Lie Zhang, Guobin Wang, Jiarui Wu, and Wei Wang*

# Smart Environments for Learning and Creativity

Using Eye Tracking to Map Behaviors in an Online Course Prototype About Epilepsy ................................................................. 505  
*Ana Teresa Contier and Laila Brito Torres*

Building Tools for Creative Data Exploration: A Comparative Overview of Data-Driven Design and User-Centered Design ........................................... 514  
*Sara Diamond, Steve Szigeti, and Ana Jofre*

The Foundation of the SEE BEYOND Method: Fashion Design and Neuroeducation Applied to the Teaching of the Project Methodology to Students with Congenital and Acquired Blindness ......................................................... 528  
*Geraldo Coelho Lima Júnior and Rachel Zuanon*

Interaction/Cognition in Design: The Red Bull Station’s Classroom Case Study ................................................................. 547  
*Priscila Trovo, Adriana Valli, Nivia Ferreira, and Agda Carvalho*

A Programming Cutting System to Enhance Productivity with Individualities ................................................................. 561  
*Cheng Yao, Ye Tao, Ting Zhang, Guanyun Wang, and Fangtian Ying*
Ambient Games and Humour

Mobile Augmented Games in Playable Cities: Humorous Interaction with Pokémon Go.............................................. 575
Marvin Andujar, Anton Nijholt, and Juan E. Gilbert

Virtual Reality Games, Therapeutic Play and Digital Healing.................. 587
Matt Dombrowski and Jaime Dombrowski

Emergence in Game Design: Theoretical Aspects and Project’s Potentialities ......................................................... 597
Nivia Ferreira, Priscila Trovo, and Sérgio Nesteriuk

Augmented Reality Games for Learning: A Literature Review........... 612
Jingya Li, Erik D. van der Spek, Loe Feijs, Feng Wang, and Jun Hu

Humor as an Ostensive Challenge that Displays Mind-Reading Ability ...... 627
Gary McKeown

Modelling Playful User Interfaces for Hybrid Games..................... 640
Anna Priscilla de Albuquerque, Felipe Borba Breyer, and Judith Kelner

Visualizing Incongruity and Resolution: Visual Data Mining Strategies for Modeling Sequential Humor Containing Shifts of Interpretation........ 660
Andrew Smigaj and Boris Kovalerchuk

Players’ Experience of an Augmented Reality Game, Pokémon Go: Inspirations and Implications for Designing Pervasive Health Gamified Applications......................................................... 675
Xin Tong, Ankit Gupta, Diane Gromala, and Chris D. Shaw

Making Fun of Failures Computationally................................. 684
Alessandro Valitutti

I Read the News Today, Oh Boy: Making Metaphors Topical, Timely and Humorously Personal................................. 696
Tony Veale, Hanyang Chen, and Guofu Li

Author Index ........................................................................... 711
Distributed, Ambient and Pervasive Interactions
Streitz, N.; Markopoulou, P. (Eds.)
2017, XIX, 713 p. 314 illus., Softcover
ISBN: 978-3-319-58696-0
