## Contents

Session Types for Link Failures .............................................................. 1  
*Manuel Adameit, Kirstin Peters, and Uwe Nestmann*

Learning-Based Compositional Parameter Synthesis  
for Event-Recording Automata ............................................................ 17  
*Étienne André and Shang-Wei Lin*

Modularising Opacity Verification for Hybrid Transactional Memory ...... 33  
*Alasdair Armstrong and Brijesh Dongol*

Proving Opacity via Linearizability: A Sound and Complete Method ...... 50  
*Alasdair Armstrong, Brijesh Dongol, and Simon Doherty*

On Futures for Streaming Data in ABS (Short Paper) ............................... 67  
*Keyvan Azadbakht, Nikolaos Beziriannis, and Frank S. de Boer*

Session-Based Concurrency, Reactively .................................................. 74  
*Mauricio Cano, Jaime Arias, and Jorge A. Pérez*

Procedural Choreographic Programming .................................................. 92  
*Luís Cruz-Filipe and Fabrizio Montesi*

An Observational Approach to Defining Linearizability  
on Weak Memory Models ........................................................................ 108  
*John Derrick and Graeme Smith*

Applying a Dependency Mechanism for Voting Protocol Models  
Using Event-B .......................................................................................... 124  
*J. Paul Gibson, Souad Kherroubi, and Dominique Méry*

Weak Simulation Quasimetric in a Gossip Scenario .................................. 139  
*Ruggero Lanotte, Massimo Merro, and Simone Tini*

Reasoning About Distributed Secrets ....................................................... 156  
*Nicolás Bordenabe, Annabelle McIver, Carroll Morgan,  
and Tahiry Rabehaja*

Classical Higher-Order Processes (Short Paper). ..................................... 171  
*Fabrizio Montesi*

Weak Nominal Modal Logic ........................................................................ 179  
*Joachim Parrow, Tjark Weber, Johannes Borgström,  
and Lars-Henrik Eriksson*
