# Contents

1 The Industry of Honey. An Introduction .................................................. 1  
  1.1 Honey. Definition and Simplified Chemical Composition ........ 1  
    1.2.1 Honey Composition. Carbohydrates .................. 7  
    1.2.2 Honey Composition. Water ......................... 8  
    1.2.3 Honey Composition. Nitrogenous Substances ........... 8  
    1.2.4 Honey Composition. Mineral Substances .............. 8  
    1.2.5 Minor Honey Components. Vitamins .................. 9  
    1.2.6 Minor Honey Components. Organic Acids ............. 9  
    1.2.7 Minor Honey Components. Aroma Compounds .......... 9  
    1.2.8 Minor Honey Components. Polyphenols ............... 9  
  1.3 Physical Properties of Honeys ......................................................... 10  
    1.3.1 Colour ......................................... 10  
    1.3.2 Density ........................................ 11  
    1.3.3 Viscosity ...................................... 11  
    1.3.4 Refraction Index .................................. 11  
  1.4 Biological and Nutritional Features of Honeys ......................... 12  
  References ................................................................. 12  

2 Honey: Processing Techniques and Treatments ....................................... 15  
  2.1 The Industry of Honey. Description of Processing Steps ............ 15  
  2.2 Initial Extraction .......................................................... 16  
  2.3 Dehumidification ............................................................ 17  
  2.4 Liquefaction and Mixture .................................................... 17  
  2.5 Heating ................................................................. 18  
  2.6 Pasteurisation ............................................................. 19  
  2.7 Crystallisation .............................................................. 19  
  2.8 Final Packaging ............................................................. 21  
  References ................................................................. 21
