Keynote and Invited Papers

Biomedical Informatics and Security Informatics Research in Digital Library
Hsinchun Chen........................................................................................................ 1

ChinaGrid: Making Grid Computing a Reality
Hai Jin.................................................................................................................. 13

Content Management and Resources Integration: A Practice in Shanghai Digital Library
Qiang Xu................................................................................................................ 25

Digital Libraries: Developing Countries, Universal Access, and Information for All
Ian H. Witten........................................................................................................ 35

Digital Libraries for Education: A Progress Report on the National Science Foundation’s (NSF) National Science, Technology, Engineering, and Mathematics Education Digital Library (NSDL) Program
Lee L. Zia............................................................................................................. 45

Digital Libraries for Education: Case Studies
Edward A. Fox.................................................................................................... 51

Digital Preservation and Workflow Process
Su-Shing Chen.................................................................................................... 61

Global Memory Net: New Collaboration, New Activities and New Potentials
Ching-chih Chen.................................................................................................. 73

Gold at the End of the Digital Library Rainbow: Forecasting the Consequences of Truly Effective Digital Libraries
Michael A. Keller............................................................................................... 84

Information Retrieval Challenges for Digital Libraries
Edie Rasmussen................................................................................................... 95

Knowledge Service and Digital Library: A Roadmap for the Future
Xiaoxing Zhang.................................................................................................... 104
**Ontological Service Layer for Digital Libraries: A Requirement and Architectural Analysis**  
*Xiaolin Zhang* ................................................................. 115

**The Distributed Collaborative Virtual Reference System and Its Scheduler Mechanism for Chinese University Libraries**  
*Min Huang, Haoming Lin, Yi Jin* ............................................... 124

**The Role of Context for Information Mediation in Digital Libraries**  
*Erich Neuhold, Claudia Niederée, Avaré Stewart, Ingo Frommholz, Bhaskar Mehta* ............................................................. 133

**Papers**

**Collaboration and Localization**

**A Policy-Based System for Institutional Web Archiving**  
*Wasuke Hiiragi, Tetsuo Sakaguchi, Shigeo Sugimoto, Koichi Tabata* ........... 144

**Building a Distributed Heterogeneous CALIS-ETD Digital Library**  
*Yang Zhao, Airong Jiang* .......................................................... 155

**Building Digitized Collection: Theory and Practice**  
*Chunrong Luo, Zhinong Zhou, Ying Zhang* ....................................... 165

**Cataloging and Preservation Toolkit of a Chinese Mathematics Ancient Books Digital Library**  
*Li Dong, Chunxiao Xing, Lizhu Zhou, Bei Zhang, Airong Jiang* ............ 174

**Exploiting Extended Service-Oriented Architecture for Federated Digital Libraries**  
*Hao Ding, Ingeborg Solvberg* ...................................................... 184

**OAI Protocol for Chinese Culture Resources Metadata Harvesting**  
*Qiaoying Zheng, Wei Zhu, Zongying Yang* ........................................ 195

**Preserving Digital Media: Towards a Preservation Solution Evaluation Metric**  
*Carl Rauch, Andreas Rauber* ....................................................... 203

**Technical Issues of Sharing and Integration of OPAC and E-Learning Resources**  
*Qinghua Zheng, Jing Shao, Haifeng Dang, Huixian Bai* ....................... 213
Technical Issues on the China-US Million Book Digital Library Project  
*Jihai Zhao, Chen Huang* ........................................................................................................... 220

The Construction and Research on Academy Culture Database  
*Zhangfei Zheng, Zhijian Fan, Xiangbo Tu* .................................................................................. 227

The Institutional Repository: The Chinese University of Hong Kong ‘SIR’ Model  
*Colin Storey, Rita Wong, Kevin Leung, Ernest Yik* ................................................................. 236

The Semantic Architecture for Chinese Cultural Celebrities’ Manuscript Library  
*Wei Liu* ..................................................................................................................................... 245

WebGIS-RBDL – A Rare Book Digital Library Supporting Spatio-Temporary Retrieval  
*Ming Zhang, Dongqing Yang, Zhihong Deng, Sai Wu, Feng Li, Shiwei Tang* ......................... 255

Approaches to Interoperability Amongst Australian Digital Information Providers  
*Philip Hider* ............................................................................................................................. 266

**Knowledge Organization and Representation**

An Experimental Study of Boosting Model Classifiers for Chinese Text Categorization  
*Yibing Geng, Guomin Zhu, Junrui Qiu, Jilian Fan, Jingchang Zhang* .............. 270

CatRelate: A New Hierarchical Document Category Integration Algorithm by Learning Category Relationships  
*Shanfeng Zhu, Christopher C. Yang, Wai Lam* ................................................................. 280

Constrains in Building Domain-Specific Topic Maps for the Discipline “Gender Studies in Informatics (GSI)”  
*M. Suriya, R. Nagarajan, R. Sathish Babu, V. Kumaresan* .................................................... 290

Managing Digital Repositories Through an Ontology-Based Design  
*Jian Qin, Foster Zhang* ........................................................................................................... 300

Metadata Extraction from Bibliographies Using Bigram HMM  
*Ping Yin, Ming Zhang, ZhiHong Deng, Dongqing Yang* ....................................................... 310

Metadata Quality Evaluation: Experience from the Open Language Archives Community  
*Baden Hughes* ....................................................................................................................... 320
New Feature Selection and Weighting Methods Based on Category Information
Gongshen Liu, Jianhua Li, Xiang Li, Qiang Li......................................................... 330

Metadata Quality Study for the National Science Digital Library (NSDL)
Metadata Repository
Marcia Lei Zeng, Bhagirathi Subrahmanyam, Gregory M. Shreve..................... 339

Providing Parallel Metadata for Digital Libraries with Linguistically Heterogeneous Documents
Gregory M. Shreve, Marcia L. Zeng................................................................. 341

Multi-media Processing and Knowledge Discovery in Digital Library

A Kind of Index for Content-Based Music Information Retrieval and Theme Mining
Jianzhong Li, Chaokun Wang, Shengfei Shi......................................................... 345

An Implementation of Web Image Search Engines
Zhiguo Gong, Leong Hou U, Chan Wa Cheang................................................. 355

A Relevance Feedback Model for Fractal Summarization
Fu Lee Wang, Christopher C. Yang................................................................. 368

A Query Analytic Model for Image Retrieval
Hsiao-Tieh Pu................................................................................................. 378

Character Region Identification from Cover Images Using DTT
Lixu Gu........................................................................................................... 388

Multilingual Story Link Detection Based on Event Term Weighting on Times and Multilingual Spaces
Kyung-Soon Lee, Kyo Kageura............................................................................ 398

PaSE: Locating Online Copy of Scientific Documents Effectively
Byung-Won On, Dongwon Lee............................................................................ 408

Temporal Versioning of XML Documents
Vilas Wuwongse, Masatoshi Yoshikawa, Toshiyuki Amagasa............................ 419

Text-Based P2P Content Search Using a Hierarchical Architecture
Junjie Jiang, Weinong Wang............................................................................. 429
A Document Image Preprocessing System for Keyword Spotting  
*C.B. Jeong, S.H. Kim*................................................................. 440

A Gaussian-Fuzzy Content Feature Recognition System for Digital Media Asset Objects  
*Sanxing Cao, Rui Lu*............................................................... 444

A Novel Watermarking Scheme Based on Video Content  
*Guomin Wu, Yueting Zhuang, Fei Wu, Yunhe Pan*...................... 449

Subjective Relevance: Implications on Digital Libraries for Experts and Novices  
*Shu-Shing Lee, Yin-Leng Theng, Dion Hoe-Lian Goh, Schubert Shou-Boon Foo*................. 453

Visual Information Retrieval Based on Shape Similarity  
*Jong-Seung Park*.................................................................... 458

**Information Retrieval Techniques**

A Query Rewriting System for Enhancing the Queriability of Form-Based Interface  
*Xiaochun Yang, Bin Wang, Guoren Wang, Ge Yu*............................ 462

Digital Library Retrieval Model Using Subject Classification Table and User Profile  
*Seon-Mi Woo, Chun-Sik Yoo*.................................................. 473

Hot-Spot Passage Retrieval in Question Answering  
*Jian Huang, Xuanjing Huang, Lide Wu*..................................... 483

Query Formulation with a Search Assistant  
*Lin Fu, Dion Hoe-Lian Goh, Schubert Shou-Boon Foo, Yohan Supangat*... 491

Semantic Query Expansion Based on a Question Category Concept List  
*Hae-Jung Kim, Bo-Yeong Kang, Seong-Bae Park, Sang-Jo Lee*............ 501

Multilingual Collection Retrieving Via Ontology Alignment  
*Liang Zhang, Guowen Wu, Yanfei Xu, Wei Li, Yang Zhong*.............. 510

Using Content-Based and Link-Based Analysis in Building Vertical Search Engines  
*Michael Chau, Hsinchun Chen*.................................................. 515
