
Contents

Nonlinear Dynamics of TCP and its Implications to Network Performance <i>András Veres, Miklós Boda</i>	1
Dynamics of Congestion Control <i>Anna C. Gilbert</i>	21
Statistical Properties of Chaos in Communication Networks <i>Gábor Vattay, K. Diriczi, A. Fekete, L. Kocarev, M. Maródi, J. Stéger</i> .	49
On Dynamics of Transport Protocols Over Wide-Area Internet Connections <i>Nageswara S. V. Rao, Jianbo Gao, Leon O. Chua</i>	69
Dynamical Properties of Externally Driven TCP traffic <i>Gábor Simon, Péter Pollner, Péter Hága, István Csabai</i>	103
Data Traffic, Topology and Congestion <i>David K. Arrowsmith, R. J. Mondrag, M. Woolf</i>	127
Chaos-Based Generation of Artificial Self-Similar Traffic <i>Gianluca Setti, Riccardo Rovatti, Gianluca Mazzini</i>	159
Macroscopic Dynamics in Large-Scale Data Networks <i>Jian Yuan, Kevin Mills</i>	191
Modelling the Complex Internet Topology <i>Guanrong Chen, Zhengping Fan,, Xiang Li</i>	213
Evolution of the Internet Topology and Traffic Dynamics of Data Packets <i>Kwang-Il Goh, Byungnam Kahng, Doochul Kim</i>	235

Modeling TCP/RED: a Dynamical Approach <i>Hui Zhang, Mingjian Liu, Vladimir Vukadinović, Ljiljana Trajković</i>	251
Nonlinear Instabilities in TCP-RED <i>Priya Ranjan, Eyad H. Abed, Richard J. La</i>	279
Synchronization in Complex Networks <i>Ljupco Kocarev, Gábor Vattay</i>	309
Dynamic Complexity in the Internet Traffic <i>Misako Takayasu</i>	329
Index	359
