

Table of Contents

Part I Universal Access in Health Telematics

Chapter 1	Universal Access.....	3
	<i>Constantine Stephanidis</i>	
Chapter 2	Trends in Health Telematics: Electronic Health Records in an Intelligent and Communicating Environment	9
	<i>Georges De Moor</i>	
Chapter 3	Towards a Universal Access Code of Practice in Health Telematics.....	17
	<i>Demosthenes Akoumianakis and Constantine Stephanidis</i>	

Part II Reference Scenarios

Chapter 4	The HYGEIAnet Reference Scenario.....	39
	<i>Demosthenes Akoumianakis and Constantine Stephanidis</i>	
Chapter 5	The SPERIGEST Integrated System	46
	<i>Pier Luigi Emiliani and Laura Burzagli</i>	
Chapter 6	The Barmerzige Schwestern Reference Scenario.....	56
	<i>Christian Stary</i>	
Chapter 7	The ClinicCoach Reference Scenario	64
	<i>Elizabeth Hofvenschiöld and Frank Heidmann</i>	
Chapter 8	WardInHand – Mobile Access to EPRs	69
	<i>Salvatore Virtuoso</i>	
Chapter 9	Patients and EHRs Tele Home Monitoring Reference Scenario	77
	<i>Michael Pieper and Karl Stroetmann</i>	
Chapter 10	MediBRIDGE / C-CARE: Remote Access to EPRs	88
	<i>Georges De Moor and Louis Schilders</i>	

Part III Design for All Methods and Their Application

Chapter 11	The Universal Access Assessment Workshop (UA ² W) Method	99
	<i>Demosthenes Akoumianakis and Constantine Stephanidis</i>	
Chapter 12	Applying the Unified User Interface Design Method in Health Telematics.....	115
	<i>Anthony Savidis, Margherita Antona, and Constantine Stephanidis</i>	
Chapter 13	Using Non-functional Requirements as Design Drivers for Universal Access.....	141
	<i>Demosthenes Akounianakis and Constantine Stephanidis</i>	
Chapter 14	Screening Models and Growth Scenarios.....	156
	<i>Demosthenes Akounianakis and Constantine Stephanidis</i>	
Chapter 15	W3C-WAI Content Accessibility Auditing	175
	<i>Pier Luigi Emiliani and Laura Burzagli</i>	
Chapter 16	Usability Inspection of the WardInHand Prototype	197
	<i>Panagiotis Karampelas, Demosthenes Akoumianakis, and Constantine Stephanidis</i>	
Chapter 17	Multimodal Interfaces – A Generic Design Approach.....	209
	<i>Noëlle Carbonell</i>	
Chapter 18	Role-Adapted Access to Medical Data: Experiences with Model-Based Development	224
	<i>Christian Stary</i>	
Chapter 19	MedicSCORE and the Evaluation of ClinicCoach.....	240
	<i>Elizabeth Hofvenschiöld and Frank Heidmann</i>	
Chapter 20	Standards Adherence and Compliance.....	255
	<i>Elizabeth Hofvenschiöld and Frank Heidmann</i>	
Chapter 21	Participatory Insight to Universal Access: Methods and Validation Exercises.....	271
	<i>Michael Pieper and Karl Stroetmann</i>	
Chapter 22	IS4ALL Method Base: Choosing Micro-methods and Tailoring to Custom Practices	297
	<i>Demosthenes Akoumianakis and Constantine Stephanidis</i>
