# Table of Contents

## Introduction

Anticipatory Behavior: Exploiting Knowledge About the Future to Improve Current Behavior ................................. 1

Martin V. Butz (University of Illinois at Urbana-Champaign, USA),
Olivier Sigaud, and Pierre Gérard (Université de Paris VI, France)

## Philosophical Considerations

Whose Anticipations? .................................................. 11

Alexander Riegler (VUB, CLEA, Brussels, Belgium)

Not Everything We Know We Learned ............................. 23

Mihai Nadin (University of Wuppertal, Germany)

## From Cognitive Psychology to Cognitive Systems

Anticipatory Behavioral Control ...................................... 44

Joachim Hoffmann (University of Würzburg, Germany)

Towards a Four Factor Theory of Anticipatory Learning .......... 66

Mark Witkowski (Imperial College, London, UK)

## Formulations, Distinctions, and Characteristics

Internal Models and Anticipations in Adaptive Learning Systems .... 86

Martin V. Butz (University of Illinois at Urbana-Champaign, USA),
Olivier Sigaud, Pierre Gérard (Université de Paris VI, France)

Mathematical Foundations of Discrete and Functional Systems with Strong and Weak Anticipations .......................... 110

Daniel M. Dubois (University of Liège, Belgium)

Anticipation Driven Artificial Personality: Building on Lewin and Loehlin .......................................................... 133

Stevo Bozinovski (South Carolina State University, USA)

A Framework for Preventive State Anticipation ...................... 151

Paul Davidsson (Blekinge Institute of Technology, Ronneby, Sweden)

Symbols and Dynamics in Embodied Cognition: Revisiting a Robot Experiment ..................................................... 167

Jun Tani (Brain Science Institute, RIKEN, Saitama, Japan)
# Table of Contents

## Systems, Evaluations, and Applications

- **Forward and Bidirectional Planning Based on Reinforcement Learning and Neural Networks in a Simulated Robot** ...................................................... 179  
  Gianluca Baldassarre *(National Research Council of Italy, Rome, Italy)*

- **Sensory Anticipation for Autonomous Selection of Robot Landmarks** ........ 201  
  Jason Fleischer, Stephen Marsland, and Jonathan Shapiro *(University of Manchester, UK)*

- **Representing Robot-Environment Interactions by Dynamical Features of Neuro-controllers** ................................................................. 222  
  Martin Hülsé, Keyan Zahedi, and Frank Pasemann *(Fraunhofer Institute for Autonomous Intelligent Systems (AIS), Sankt Augustin, Germany)*

- **Anticipatory Guidance of Plot** ................................................. 243  
  Jarmo Laaksolahti and Magnus Boman *(Swedish Institute of Computer Science, Kista, Sweden)*

- **Exploring the Value of Prediction in an Artificial Stock Market** ............... 262  
  Bruce Edmonds *(Manchester Metropolitan University, UK)*

- **Generalized State Values in an Anticipatory Learning Classifier System** .... 282  
  Martin V. Butz and David E. Goldberg *(University of Illinois at Urbana-Champaign, USA)*

## Author Index

- ................................................................. 303
Anticipatory Behavior in Adaptive Learning Systems
Foundations, Theories, and Systems
Butz, M.V.; Sigaud, O.; Gérard, P. (Eds.)
2003, X, 305 p., Softcover
ISBN: 978-3-540-40429-3
