

Contents

1. Introduction	1
2. Top quark production and decay at hadron colliders	9
3. Accelerator and detectors	24
4. Measurement of the $t\bar{t}$ production cross section at the tevatron	45
5. Search for single top quark production	76
6. Top quark interactions with Gauge bosons	82
7. Fundamental properties of the top quark	98
8. Anomalous top quark production	129
9. Anomalous top quark decays	135
10. New physics in events with $t\bar{t}$ topology	137
11. Top quark physics at the LHC	138
12. Summary	153
