## Contents

Efficient Level-Based Top-Down Data Cube Computation Using MapReduce. ........................................... 1  
   *Suan Lee, Jinho Kim, Yang-Sae Moon, and Wookey Lee*

Differentiated Multiple Aggregations in Multidimensional Databases. ...... 20  
   *Ali Hassan, Frank Ravat, Olivier Teste, Ronan Tournier, and Gilles Zurfluh*

MIRABEL DW: Managing Complex Energy Data in a Smart Grid. ............... 48  
   *Laurynas Šikšnys, Christian Thomsen, and Torben Bach Pedersen*

Modular Neural Networks for Extending OLAP to Prediction. 73  
   *Wiem Abdelbaki, Sadok Ben Yahia, and Riadh Ben Messaoud*

Cut-and-Rewind: Extending Query Engine for Continuous Stream Analytics. ........................................... 94  
   *Qiming Chen and Meichun Hsu*

Mining Popular Patterns: A Novel Mining Problem and Its Application to Static Transactional Databases and Dynamic Data Streams. ................. 115  
   *Alfredo Cuzzocrea, Fan Jiang, Carson K. Leung, Dacheng Liu, Aaron Peddle, and Syed K. Tanbeer*

Rare Pattern Mining from Data Streams Using SRP-Tree and Its Variants . . 140  
   *David Tse Jung Huang, Yun Sing Koh, and Gillian Dobbie*

Improving Cross-Document Knowledge Discovery Through Content and Link Analysis of Wikipedia Knowledge. ........................................... 161  
   *Peng Yan and Wei Jin*

**Author Index** ............................................ 185
Transactions on Large-Scale Data- and Knowledge-Centered Systems XXI
Selected Papers from DaWaK 2012
Hameurlain, A.; Küng, J.; Wagner, R.; Cuzzocrea, A.; Dayal, U. (Eds.)
2015, XIII, 185 p. 84 illus., Softcover
