# Contents

## Part I  Disease Forms and Animal Models of Hypophosphatasia

1. **Clinical Forms and Animal Models of Hypophosphatasia**  
   Jean Pierre Salles  
   3

2. **Molecular Genetics of Hypophosphatasia and Phenotype-Genotype Correlations**  
   Etienne Mornet  
   25

3. **Genetically Modified Mice for Studying TNAP Function**  
   Sonoko Narisawa  
   45

## Part II  Expression and Regulation of TNAP in the Central Nervous System

4. **Tissue-Nonspecific Alkaline Phosphatase in the Developing Brain and in Adult Neurogenesis**  
   Herbert Zimmermann and David Langer  
   61

5. **Rediscovering TNAP in the Brain: A Major Role in Regulating the Function and Development of the Cerebral Cortex**  
   Caroline Fonta, Pascal Barone, Laia Rodriguez Martinez and László Négyessy  
   85

6. **The Retinal TNAP**  
   Orsolya Kántor, Dorottya Cserpán, Béla Völgyi, Ákos Lukáts and Zoltán Somogyvári  
   107
Part III  TNAP Functions in the Nervous System

8  What Can We Learn About the Neural Functions of TNAP from Studies on Other Organs and Tissues? .............................. 155
José Luis Millán

9  TNAP, an Essential Player in Membrane Lipid Rafts of Neuronal Cells ........................................... 167
Myriam Ermonval, Florence Baychelier and Caroline Fonta

10 Signal Transduction Pathways of TNAP: Molecular Network Analyses .................................................. 185
László Négyessy, Balázs Györgffy, János Hanics, Mihály Bányai, Caroline Fonta and Fülöp Bacsó

11 Vitamin B-6 Metabolism and Interactions with TNAP ............... 207
Stephen P. Coburn

12 Tetramisole and Levamisole Suppress Neuronal Activity Independently from Their Inhibitory Action on Tissue Non-specific Alkaline Phosphatase in Mouse Cortex ........ 239
Lionel G. Nowak, Benoît Rosay, Dávid Czégé and Caroline Fonta

13 TNAP and Pain Control .............................................. 283
Sarah E. Street and Nathaniel A. Sowa

Part IV  TNAP in Neurological Disorders

14 Neurological Symptoms of Hypophosphatasia ........................... 309
Takeshi Taketani

15 Recombinant Enzyme Replacement Therapy in Hypophosphatasia ................................................ 323
Christine Hofmann, Franz Jakob, Lothar Seefried, Birgit Mentrup, Stephanie Graser, Horacio Plotkin, Hermann J. Girschick and Johannes Liese
