ADVANCES IN NEUROBIOLOGY
Editor-in-Chief: Dr. Arne Schousboe, University of Copenhagen

Ethical Standards Policy

Manuscripts submitted for publication must contain a statement to the effect that all human studies have been approved by the appropriate ethics committee and have therefore been performed in accordance with the ethical standards laid down in the 1964 Declaration of Helsinki. It should also be stated clearly in the text that all persons gave their informed consent prior to their inclusion in the study. Details that might disclose the identity of the subjects under study should be omitted. The editors reserve the right to reject manuscripts that do not comply with the above-mentioned requirements. The author will be held responsible for false statements or failure to fulfill the above-mentioned requirements.

Conflict of Interest Policy

Authors must indicate whether or not they have a financial relationship with the organization that sponsored the research. This note should be added in a separate section before the acknowledgements. If no conflict exists, authors should state: The authors declare that they have no conflict of interest.
