Welcome Note

The Conference will aim to deal with all aspects related to early diagnosis, 120 to 139 mm Hg and 85 to 89 mm Hg respectively. A new BP category, “Prehypertension,” for systolic and diastolic BP: “Prehypertension: Detection, Evaluation and Treatment of High Blood Pressure.” The ESH report of 2006 and the seventh report of the Joint National Committee on the Detection, Evaluation, and Treatment of High Blood Pressure suggest that BP in the high normal range is associated with an increased risk of cardiovascular disease. The new BP category “Prehypertension” for systolic and diastolic BP is categorized as "normal".

The Conference will aim to deal with all aspects related to early diagnosis, 120 to 139 mm Hg and 85 to 89 mm Hg respectively. A new BP category, “Prehypertension,” for systolic and diastolic BP: “Prehypertension: Detection, Evaluation and Treatment of High Blood Pressure.” The ESH report of 2006 and the seventh report of the Joint National Committee on the Detection, Evaluation, and Treatment of High Blood Pressure suggest that BP in the high normal range is associated with an increased risk of cardiovascular disease. The new BP category “Prehypertension” for systolic and diastolic BP is categorized as "normal".

Prehypertension is associated with other components of the metabolic syndrome (i.e., obesity, glucose intolerance), and these shared mechanisms may lead to deterioration in glucose tolerance with increased cardiovascular risk. The Conference will aim to deal with all aspects related to early diagnosis, 120 to 139 mm Hg and 85 to 89 mm Hg respectively. A new BP category, “Prehypertension,” for systolic and diastolic BP: “Prehypertension: Detection, Evaluation and Treatment of High Blood Pressure.” The ESH report of 2006 and the seventh report of the Joint National Committee on the Detection, Evaluation, and Treatment of High Blood Pressure suggest that BP in the high normal range is associated with an increased risk of cardiovascular disease. The new BP category “Prehypertension” for systolic and diastolic BP is categorized as "normal".

We hope that you will join us for what promises to be a stimulating professional and educational event and look forward to welcoming you to Barcelona.

Yours sincerely,

Daniel A. Duprez
Hermann Hermann
Basil S. Lewis
Reuven Zimlichman
Co-Chairs

Deadline for Abstract Submission: September 13th, 2012

Welcome Note

The 2nd International Conference on PreHypertension and Cardio Metabolic Syndrome
January 31 - February 3, 2013, Barcelona, Spain

www.prehypertension.org
Committees

Co-Chairs
Daniel A. Duprez, USA
Hermann Haller, Germany
Basil S. Lewis, Israel
Reuven Zimlichman, Israel

Organizing Committee
Luis M. Ruilope, Spain, Chair
Olga Gonzalez Albarran
Sara Artola
Mariano de la Figuera
Josep Maria Galcerán
Ramon Gomis
Jose Zamorano

Scientific Committee
Giuseppe Ambrosio, Italy
Raffaele Bugiardini, Italy
John R. Cockcroft, UK
Peter W. de Leeuw, Netherlands
Cetin Erol, Turkey
Raimund Erbel, Germany
Csaba Farsang, Hungary
Pavel Hamet, Canada
Anthony M. Heagerty, UK
Uday Jadhav, India
Andrzej Januszewicz, Poland
Petr Kala, Czech Republic
Sverre E. Kjeldsen, Norway
Carmel McEniery, UK
Itamar Raz, Israel
Alexander R. Rosenkranz, Austria
Talma Rosenthal, Israel
Hiroyuki Sasamura, Japan
Guntram Schernthaner, Austria
Oliver Steinbach, Netherlands
Thomas Unger, Germany
Romeo J. Vecht, Israel
Joe Vita, USA
Charalambos Vlachopoulos, Greece
Bruno Watschinger, Austria
Thomas Weber, Austria
Ian B. Wilkinson, UK
Yuqing Zhang, China

Honorary Chairmen
Stevo Julius, USA    Giuseppe Mancia, Italy

Conference topics will include

• Metabolic Syndrome and Vitamin D
• Prediabetes - Mechanisms, Diagnosis and Management
• Pre Levels of CV Risk Factors - Boosting Risk of Events and Deciding Who Should be Treated
• Benefits of Achieving Optimal Risk Factors Level - When, How and with What?
• Prehypertension and Metabolic Syndrome in Different Populations - Epidemiologic Aspects
• Total Cardiovascular Risk Evaluation and Management
• Arterial Properties, Evaluation and Treatment in Metabolic Syndrome Patients
• Cardiac Markers of Preclinical Disease in Metabolic Syndrome Patients
• Effect of Pre Disease Risk Factors in Patients with the Metabolic Syndrome on Morbidity and Mortality
• Which Elderly Patients with Pre Disease should be Considered for Medical Treatment
• Children and Adolescents: Prehypertension and Metabolic Syndrome, Progression of Risk and Diagnosis of Disease
• The Heart, the Brain and the Kidney in Pre Disease and the Metabolic Syndrome

The full topic list can be viewed at the Conference website: www.prehypertension.org

Call for Abstracts

The Scientific Committee encourages the submission of original abstracts for oral and poster presentations. All submitted abstracts will be reviewed by the Scientific Committee. If an abstract is accepted, the presenting author is required to register to attend the conference.
