Publication Policies

Submission is a representation that the manuscript has not been published previously and is not currently under consideration for publication elsewhere. Upon acceptance of your article you will receive a link to the special Author Query Application of Springer’s website where you can sign the Copyright Transfer Statement online and indicate whether you wish to order OpenChoice, paper offprints, or printing of figures in color.
Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible.

In addition to the standard publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer’s online platform SpringerLink. To publish through Springer Open Choice, upon acceptance please visit the link below to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.

The Method section of each manuscript should contain a detailed description of the study consent/assent procedures and verify that the study has been conducted with full IRB approval.

Piecemeal publication of limited data from larger data sets is discouraged. Findings that are novel and make substantive contributions to the literature are encouraged.

All authors are responsible for noting any and all financial or other relationship that might be a potential conflict of interest.

International submissions are welcomed. It is the responsibility of the authors to ensure that the manuscript has been very carefully copyedited for language, grammar, punctuation prior to submission. Manuscript that fail to meet generally accepted criteria for quality writing and adherence to style mandates are not forwarded for review and processing.

All manuscripts are given preliminary review by the editor-in-chief, who examines each submission for topic fit, methodological rigor, adherence to submission guidelines, etc. Manuscripts outside the scope and/or the expected minimal methodological rigor are not considered for peer review.

Permission requests are the responsibility of the author and guidance for writing a permission request letter is found in the Publication Manual of the APA. Permission must be granted for reproduction in both print and electronic form. Please label each permission with the corresponding figure number. Permissions must be attached to your Transfer of Copyright:
Informed consent, which has been obtained from individuals who have been photographed.
• Letter of Permission from the copyright holder, if the photographs were obtained from another source (i.e., a photographer or primary investigator who prepared a CD of faces).
• If the photographs are not original, text should be added to your figure captions to acknowledge the author and the copyright holder. Often wording is supplied by the copyright holder. If not, you may add copyright information and the phrase “reprinted with permission.” (page 175)
