CSI Transactions on ICT

Chief Editor:
Professor S. V Raghavan
Indian Institute of Technology, India
Email: sv.raghavan@nic.in

ISSN: 2277-9078 (print version)
ISSN: 2277-9086 (electronic version)
Journal no. 40012
2012: Volume 1

- To showcase innovative, creative and original ICT research contributions and advancements in ICT
- To promote inter disciplinary translational research and applications of ICT for societal benefit, in line with the CSI Mission of “ICT for Masses”
- To serve as a platform for institutionalizing the knowledge creation globally, with focus on India

The focus of CSI Transactions on ICT is on the practical implications of advances in information and communication technology and associated management issues. It is intended for all kind of professionals be it researchers, academicians, industry, government and policy makers. The journal will also serve domain experts in education, healthcare, management and agriculture who are making an attempt to utilize the vast potential of ICT in their respective fields and thereby bridge the digital divide. CSI Transactions will initially provide coverage on the following areas:

- Systems and Architecture
- Software Design and Performance
- Cyber and Information Security

We welcome your submission to CSI Transactions on ICT!

How to Submit Online:

New authors should submit their manuscripts online via the journal homepage: www.springer.com/40012.

Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Please follow the hyperlink “Submit online” on the right of the homepage and upload all of your manuscript files following the instructions given on the screen. CSI Transactions on ICT uses the Editorial Manager Submission platform; authors familiar with the system can go straight to the dedicated site here: http://www.editorialmanager.com/csit/

Before you submit, please ensure:
1) the work described has not been published before
2) that it is not under consideration for publication anywhere else
3) that its publication has been approved by all co-authors, if any, as well as by the responsible authorities at the institute where the work has been carried out
