The best place to be for researchers and engineers from the chemiluminescence, bioluminescence and biosensor communities

A four-days program consist of daily invited lectures, keynotes, oral presentations, poster spotlight and posters. All is organized in order you will find your place.

Abstracts are invited from July 2017 on the following topics:

### Bioluminescence
- Theoretical aspect
- Luciferases
- Biochemistry
- Biodiversity
- Reporter gene technology, Others....

### Chemiluminescence
- Theoretical chemistry
- Photoproteins
- Photo/thermo/ electrochemiluminescence
- Nanoparticles and probes
- Educational tools
- Others....

### Bioassays/Biosensors
- Enzyme/affinity/cell biosensors
- Material science
- Transducers
- Microsystems
- In vivo imaging
- Others.....
