Electronic Materials Letters

Bimonthly Published by Korean Institute of Metals and Materials

Abstracting & Indexing Services: SCIE (Science Citation Index Expanded, IF = 2.057), SCOPUS
ISO Abbreviation of Title / jISSN / eISSN: ELECTRON MATER LETT / 1738-8980 / 2093-6788

Aims and Scope: Electronic Materials Letters was founded in 2005 and publishes original papers and reviews on all aspects of research and technology in electronic materials. Emphasis is placed on the science and engineering of four main research topics: energy, display, nano, and semiconductor/magnetic materials.

Preparation of Manuscripts

Title should be concise but informative enough to facilitate as clearly as possible the main subject of the manuscript. The first letter of each word should begin with a capital letter exclusive of any articles, conjunctions, and prepositions in it. The first word after a hyphen should also be capitalized.

Example: “Mn-Doped Nanoparticle Synthesis with In Situ X-Ray Diffraction and Time-Resolved Photoluminescence”

Affiliations should include all those who have made substantial contributions to the work. All authors’ names should be written in their full form, and at least one author should be designated with an e-mail address as the corresponding author.

References should include the following information in the order of Department, Institute, City, Zip Code, and Country.
Example: 130 References should not exceed 200 words, and up to 6 keywords can be included.

Text should be concise and written in clear and plain English.

The International System of Units (SI) should be employed throughout the text.

Acknowledgments and references.

Main text of the manuscript.

Submissions: Submission of a manuscript represents that the work submitted has neither been copyrighted, published, nor submitted for publication elsewhere in any other medium, including electronic journals and computer databases of a public nature. Any prior publication is a basis for rejection. An appearance in conference proceedings or a similar special presentation with limited distribution is not necessarily a prior publication.

Review Processes: The submitted manuscript will be judged by two qualified reviewers assigned by editors, ensuring that the reviews are comprehensive and fair. The editor-in-chief makes the final decision regarding the paper based on the review result.

Copyright: Upon acceptance of a paper, the author(s) will be asked to transfer the copyright of the paper to the publisher, The Korean Institute of Metals and Materials. This transfer will ensure the widest possible dissemination of the information.

Acknowledged Manuscript: If authors supply usable color graphics files, illustrations will appear in color in the online journal, free of charge to the authors. However, authors must bear the cost of any color they use in the printed journal. Also, authors are entitled to receive reprints, and they must pay the extra charge.

Ethics for the policies on the research and publication ethics not stated in this instructions, international standards for editors and authors (http://publicationethics.org/resources/international-standards-for-editors-and-authors) can be applied.

Table of Contents (TOC) Image: The TOC image is required. The illustration should capture the readers’ attention and, in conjunction with the manuscript title, should give a quick visual impression of the essence of the paper without providing specific results. The graphic should be in the form of a structure, graphical image, photograph, reaction scheme, or equation. The authors must submit the graphic in the actual size to be used for the TOC, fitting in an area 4.5 cm high and 6.5 cm wide. Larger images will be reduced to fit within those dimensions. The title size of labels and other symbols within the graphic must be legible, and tables are not acceptable. Provide the TOC graphic upon submission of the paper as the last page of the manuscript.
