International Research Conference on Sustainable Energy, Engineering, Materials and Environment

Dear Colleagues,

Noel Perera PhD., a senior academic at the Faculty of Engineering and Environment of the Northumbria University and Chairman of the Organizing Committee of the International Research Conference on Sustainable Energy, Engineering, Materials and Environment (SEEME), which will be held Newcastle Upon Tyne (United Kingdom), from 26th to 28th of July 2017, would like to invite you to submit your paper(s) to this conference.

Submit your paper »

SUSTAINABLE ENERGY / ENGINEERING / MATERIALS / ENVIRONMENT

Conference Topics »

This event offers a platform for worldwide researchers and scientists from academia, industry and government to discuss proposals and disseminate results on sustainable energy and materials and its impact on engineering and our environment. The formation of lasting productive partnerships between the participants is also an objective of this conference. This research conference is open to all in the research and scientific community.

All presented papers will be published in the conference proceedings. Selected papers will be invited for consideration as a full peer review submission of the conference journals. The Environmental Science and Pollution Research Journal will publish selected papers of the conference. We would like to invite you to submit your papers and apply to publish in this journal.

We are looking forward to hearing from you.

Best regards,
Noel Perera, PhD.
Chairman

Newcastle Upon Tyne was developed around the Roman settlement Pons Aelius and was named after the castle built in 1080 by Robert Curthose, William the Conqueror's eldest son. The city grew as an important centre for the wool trade in the 14th century, and later became a major coal mining area. For more information, please go to:
