Online Manuscript Submission

*Computer Supported Cooperative Work* has a fully web-enabled manuscript submission and review system called Editorial Manager. This system offers authors the option of tracking in real time the review process of their manuscripts. The online manuscript and review system offers easy and straightforward log-in and submission procedures. It supports a wide range of submission file formats, including Word, WordPerfect, RTF, TXT and LaTeX for article text and TIFF, EPS, PS, GIF, JPEG and PPT for figures. PDF is not a recommended format.

Manuscripts should be submitted to: [http://www.editorialmanager.com/cosu/](http://www.editorialmanager.com/cosu/)

**NOTE:** In case you encounter any difficulties while submitting your manuscript using Editorial Manager, please get in touch with the responsible Editorial Assistant by clicking on “CONTACT US” from the toolbar.

**Electronic figures**

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures − 600 − 1200 dpi; photographs − 300 dpi; screen dumps − leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

**Colour figures**

Colour figures may be printed at the author’s expense. Please indicate at submission which figures should be printed in colour, the number of colour pages you prefer and to which address we can send the invoice. In addition, please specify if figures are to appear together on a colour page. Our standard prices are: for one page 795, for two pages 1250, for three pages 1480 and for each subsequent page an additional 230.

**Language**

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.
Manuscript Presentation

The journal's language is International English. British English or American English spelling and terminology may be used, but either one should be followed consistently throughout the article. Quotations of more than 40 words should be set off clearly, either by indenting the left-hand margin and/or by using a smaller typeface. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense. Please do not use italics to indicate quotations.

Number the pages consecutively with the first page containing:
- running head (shortened title)
- title
- author(s)
- affiliation(s)
- full address for correspondence, including telephone and fax number and email address

Abstract

Please provide a short abstract of 100 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references. Since abstract and key words will be used to select appropriate reviewers, it is essential to make them as informative as possible.

Key Words

Please provide 5 to 10 key words or short phrases in alphabetical order.

Section headings

Section headings should be numbered (e.g., 1., 1.1, 1.1.1, 2., 2.1, etc.).

Appendices

Supplementary material should be collected in an Appendix and placed before the Notes and Reference sections.

Notes

Please use endnotes rather than footnotes. Notes should be indicated by consecutive superscript numbers in the text and listed at the end of the article before the References. A source reference note should be indicated by means of an asterisk after the title. This note should be placed at the bottom of the first page.

Cross-Referencing

In the text, a reference identified by means of an author’s name should be followed by the year of the reference in parentheses and page number(s) where appropriate. When there are more than two authors, only the first author's name should be
mentioned, followed by ‘et al.’. In the event that an author cited has had two or more works published during the same year, the reference, both in the text and in the reference list, should be identified by a lower case letter like ‘a’ and ‘b’ after the year to distinguish the works.

Examples:
Winograd (1986, p. 204)
(Winograd 1986a, b)
(Winograd 1986b; Flores et al. 1988)
(Bullen and Bennett 1990)
(CEC DGXIII 1989)

Acknowledgements

Acknowledgements of people, grants, funds, etc. should be placed in a separate section before the References.

References

The *CSCW Journal* is both interdisciplinary and international. Bibliographical information therefore has to be unambiguous for a readership beyond the author’s local community.

The reference format is based on the Springer version of the APA format, but with additional requirements:

- To avoid mistakes, volume numbers, issue numbers, and page numbers must be indicated by standard labels (‘vol.’, ‘no.’, and ‘pp.’, respectively).
- Full article or book titles are required, also for proceedings.
- To avoid misidentification, authors' names should include the first (or given) name.

Specific instructions:

References to books, journal articles, articles in collections and conference or workshop proceedings, and technical reports should be listed at the end of the article in alphabetical order. Articles in preparation or articles submitted for publication, unpublished observations, personal communications, etc. should not be included in the reference list but should only be mentioned in the article text (e.g., T. Moore, personal communication).

References to books should include the author's name; year of publication; title (in italics); place of publication; publisher; in the order given in the example below.

References to books with collective or organizational authorship should include the collective’s name or its standard acronym; year of publication; title (in italics); place of publication; publisher; in the order given in the example below.

References to articles in an edited collection should include the author's name; year of publication; article title; editor's name; title of collection (in italics); first and last page numbers; place of publication; publisher, in the order given in the example below.

References to articles in conference proceedings should include the author's name; year of publication; article title; editor's name (if any); full title of proceedings (in italics); first and last page numbers; place and date of conference; place of publication; publisher and/or organization from which the proceedings can be obtained, in the order given in the example below.

References to articles in periodicals should include the author's name; year of publication; article title; full title of periodical (in italics); volume number (and issue number where appropriate); publication date (where appropriate); first and last page, in the order given in the examples below.

References to technical reports or doctoral dissertations should include the author's name; year of publication; title of report or dissertation (in italics); location of institution; institution, in the order given in the example below.

References to online documents should include the author's name; year of publication; title of online document; type of online document; source; URL of online

In cases not covered by these specifications, please consult the APA guidelines.

**Figures**

All photographs, graphs and diagrams should be referred to as a ‘Figure’ and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

**Tables**

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figure legends in the manuscript.

**Measurements**

Measures should be given in the International Metric system.

**Time and Date**

Dates and hours should be given in the international format of 13 October 2010, 16:28.

**Proofs**

Proofs will be sent to the corresponding author by email. Your response to the proofs, with or without corrections, should be submitted before your article can be processed online. Please make any corrections to the electronic file provided to you by Springer's online e.Proofing tool. This tool gives authors and editors the possibility to make corrections directly in the text, which avoids interpretation errors common to separate correction documents.
Page Charges and Colour Figures

No page charges are levied on authors or their institutions except for colour pages. Please see the section labelled ‘Colour Figures’ in Manuscript Submission.

Copyright

Authors will be asked, upon acceptance of an article, to transfer copyright of the article to the Publisher. This will ensure the widest possible dissemination of information under copyright laws.

Permissions

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer’s online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springer.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
