MANUSCRIPT SUBMISSION

Manuscript Submission
Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

Permissions
Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) for both the print and online format and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Online Submission
Authors should submit their manuscripts online. Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Please follow the hyperlink “Submit online” on the right and upload all of your manuscript files following the instructions given on the screen. If the link is not activated, please mail your submission to priyanka.tyagi@ihdindia.org.

TITLE PAGE

The title page should include:
- The name(s) of the author(s)
- A concise and informative title
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, telephone and fax numbers of the corresponding author

Abstract
Please provide an abstract of 150 to 200 words. The abstract should not contain any undefined abbreviations or unspecified references.

Keywords
Please provide 4 to 6 keywords which can be used for indexing purposes.

TEXT

Text Formatting
Manuscripts should be submitted in Word.
- Use a normal, plain font (e.g., 10-point Times Roman) for text.
- The paper should be in double space.
- The title should be in capital letters.
- Author/s names should be centred. If there is an acknowledgement note, please attach it as a footnote to the author’s name.
- Provide author’s affiliations as a footnote.
- Use italics for emphasis.
- Use the automatic page numbering function to number the pages.
- Do not use field functions.
Use tab stops or other commands for indents, not the space bar.
Use the table function, not spreadsheets, to make tables.
Use the equation editor or MathType for equations.
Save your file in docx format (Word 2007 or higher) or doc format (older Word versions).

Manuscripts with mathematical content can also be submitted in LaTeX.
LaTeX macro package (zip, 182 kB)

Spellings & punctuations
UK Spellings (use -ise, -isation (organise, organisation))
Commas and periods go outside quotation marks (British system)

Order of the manuscript
Title page (Article title, Author names, Abstract and acknowledgement/author affiliation footnote should be on this page)
Text of paper
Figures and Tables should appear at the relevant places in the text and not at the end of the article.
Appendix (if any)
Notes (if any)
References

Headings
Please use the decimal system of headings with no more than three levels.

H1: All Caps, roman, bold, numbered with capital roman numerals. For example: I. LABOUR PRODUCTIVITY IN MANUFACTURING SECTOR
H2: Title Case, bold, numbered with Arabic numerals. For example: 2. Labour Productivity in Manufacturing Sector
H3: Title Case, normal, numbered with small roman numerals. For example: i. Labour Productivity in Manufacturing Sector
H4: Sentence case, italics, numbered with lower case alphabets, and text to run on after the colon. For example: a. Labour productivity in manufacturing sector:

Abbreviations
Abbreviations should be defined at first mention and used consistently thereafter. Use acronym alone thereafter. However, commonly used acronyms do not need to be spelled out (GDP, UNDP).

Lists
Numbered with lower case alphabets (a, b, c)

Footnotes
Footnotes can be used to give additional information, which may include the citation of a reference included in the reference list. They should not consist solely of a reference citation, and they should never include the bibliographic details of a reference. They should also not contain any figures or tables.
Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).
Footnotes to the title or the authors of the article are not given reference symbols.
Always use footnotes instead of endnotes.

Acknowledgments
Acknowledgments of people, grants, funds, etc. should be placed in a separate section before the reference list. The names of funding organizations should be written in full.
CITATIONS

References
Cite references in the text by name and year in parentheses. Some examples:

- Negotiation research spans many disciplines (Thompson, 1990, ; Deshpande, 2003, pp 20-23).
- This result was later contradicted by Becker and Seligman (1996).
- This effect has been widely studied (Abbott, 1991, 1995; Barakat et al., 1995; Kelso and Smith, 1998; Medvec et al., 1999).
- Where citations occur within parenthetical text, use square brackets. For example, “The factual errors (analysis refers to a study by Rajaram [2007] on this...)”
- Mention page numbers where citation ends. For example, “The analysis ..........” (Rao, 2008, pp. 124-25)
- Use et al. for references with 4 or more authors.

Equations

- Equation (1); Equations (1), (3), and (5); Equations (3)–(5); Equations (1) and (3)

Figures

- Figures to be cited in numerical order; use Arabic numerals for figure numbers. For example: Figure 1, Figures 2a and 2b.

Tables

- Tables to be cited in numerical order; use Arabic numerals for table numbers. For example: Table 1, Tables 1–4, (see Table 1),
- Tables should always be cited in text in consecutive numerical order.

TABLES

- All tables are to be numbered using Arabic numerals.
- For each table, please supply a table caption (title) explaining the components of the table. The title should be brief and to the point.
- Identify any previously published material by giving the original source in the form of a reference at the end of the table caption.
- Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data) and included beneath the table body.

INDENTED EXTRACTS/ QUOTATIONS

- Quoted material of over 40 words in length should be separated out from the text by being indented from the left margin. This should be done by using the indent function of your word processing program.
- The quotations must be in inverted commas. At the end of the quote, please mention the reference/source along with page number. For example: “The Government of India........programmes”. (Desai, 2008, p. 45).

MATHEMATICAL REPRESENTATIONS & OTHER FORMATTINGS

Numerals
Use digits for numerals from 10 upwards. Use numerals for measurements, e.g. 12 km, and ages, e.g. 10 years old.

You should use numerals for percentages in the text but spell out ‘per cent’, e.g. 24 per cent. The percentage sign (%) should be used only in tables and figures.

In a text where the content is statistical or technical, use % with digits and ‘per cent’ otherwise. Insert a comma for thousands and tens of thousands, e.g. 1,000 and 10,000.

Dates
- Set dates out as follows: ‘8 July 1995’, ‘on 8 July’, ‘on the 8th’; ‘1990s’ (not spelt out, no apostrophe); ‘nineteenth century’ (not 19th century); ‘1995–7’, ‘1914–18’.

He/she
- Avoid the use of ‘he’ (when he or she is meant) wherever possible, either through the use of ‘they’ or by repeating the noun.

Capitalization
- Keep the use of capitals to a minimum. Use lower case for government, church, state, party, volume, and so on, unless a specific one is named, e.g. the Labour Party, the Conservative Government.

En rules
- An en rule is longer than a hyphen and is used to replace ‘to’ in number spans, e.g. ‘24–8’.
- As there is no en rule key on the standard keyboard you should indicate en rules between numbers using the normal short hyphen. Our typesetters can then change all hyphens in number spans to en rules.
- The en rule is also used to link two items of equal weight, e.g. ‘Nazi–Soviet pact’.
- To indicate words which should be linked with en rules (rather than normal hyphens) type a double hyphen, e.g. Nazi–Soviet pact. The typesetter can then search for double hyphens between words and replace them with en rules.
- Spaced en rules are used as parenthetical dashes or pauses. Type a single hyphen with a space before and after to indicate a dash.

Designative terms: Group 1, Case 3, Type 2, etc.
- Use ampersands (&) only with company names (eg., AT&T); or in places where two names are linked together to form a single unit (eg., R&D). It should not be used in place of ‘and’.

Place Names:
- The spellings of place names should correspond to the names given in standard atlases, and to common usage in case a particular place is a small hamlet or village and has not been included in any atlas.
- Please thoroughly cross-check the spellings of all place names cited in the article, before submitting it for publication.

REFERENCES

Reference list
The list of references should only include works that are cited in the text and that have been published or accepted for publication. Personal communications and unpublished works should only be mentioned in the text. Do not use footnotes or endnotes as a substitute for a reference list. Reference list entries should be alphabetized by the last names of the first author of each work. Please do not include any reference in the Reference List that has not been cited anywhere in the
text. Simultaneously, it is also important to ensure that all references cited in the text are detailed in the Reference list. Never use *et al.* in the reference list—all author names must be listed. Unpublished works can be cited as long as they are considered for publication or can be located by the reader. Other types of unpublished citations should be incorporated as page footnotes (e.g., personal communications). For ‘in-press’ citations, use ‘forthcoming’. Use ‘en dash’ for page ranges, and with complete numbers given without elision (e.g., 243–254 and not as 243–54).

- **Journal article**

- **Book**

- **Book chapter**

- **Online document/website**

- **Proceedings/conference**

- **Working paper/Thesis**

- **Report**

- **Newspaper**

**BOOK REVIEWS**
The book reviews should carry the following details of the book under review, in the given order, at the beginning of the review:

- Name(s) of the author(s)/editor(s);
- Name of the book;
- Name of the publisher/publishing house;
- Place of publication;
- Year of publication;
- Number of pages; and
- Price of the book.
Details of the reviewer should be given at the end of the review in the following order:

- Name(s) of the reviewer(s);
- Name of the institute/organisation/Government department, etc. that the reviewer is affiliated to; and
- Place of location of the above institution/organisation, etc.

**ARTWORK AND ILLUSTRATIONS GUIDELINES**

For the best quality final product, it is highly recommended that you submit all of your artwork – photographs, line drawings, etc. – in an electronic format. Your art will then be produced to the highest standards with the greatest accuracy to detail. The published work will directly reflect the quality of the artwork provided.

**Electronic Figure Submission**

- Supply all figures electronically.
- Indicate what graphics program was used to create the artwork.
- For vector graphics, the preferred format is EPS; for halftones, please use TIFF format. MSOffice files are also acceptable.
- Vector graphics containing fonts must have the fonts embedded in the files.
- Name your figure files with "Fig" and the figure number, e.g., Fig1.eps.

**Line Art**

- Definition: Black and white graphic with no shading.
- Do not use faint lines and/or lettering and check that all lines and lettering within the figures are legible at final size.
- All lines should be at least 0.1 mm (0.3 pt) wide.
- Scanned line drawings and line drawings in bitmap format should have a minimum resolution of 1200 dpi.
- Vector graphics containing fonts must have the fonts embedded in the files.

**Halftone Art**
Definition: Photographs, drawings, or paintings with fine shading, etc.
If any magnification is used in the photographs, indicate this by using scale bars within the figures themselves.
Halftones should have a minimum resolution of 300 dpi.

Combination Art

Definition: a combination of halftone and line art, e.g., halftones containing line drawing, extensive lettering, color diagrams, etc.
Combination artwork should have a minimum resolution of 600 dpi.

Color Art

Color art is free of charge for online publication.
If black and white will be shown in the print version, make sure that the main information will still be visible. Many colors are not distinguishable from one another when converted to
black and white. A simple way to check this is to make a xerographic copy to see if the necessary distinctions between the different colors are still apparent.

- If the figures will be printed in black and white, do not refer to color in the captions.
- Color illustrations should be submitted as RGB (8 bits per channel).

**Figure Lettering**

- To add lettering, it is best to use Helvetica or Arial (sans serif fonts).
- Keep lettering consistently sized throughout your final-sized artwork, usually about 2–3 mm (8–12 pt).
- Variance of type size within an illustration should be minimal, e.g., do not use 8-pt type on an axis and 20-pt type for the axis label.
- Avoid effects such as shading, outline letters, etc.
- Do not include titles or captions within your illustrations.

**Figure Numbering**

- All figures are to be numbered using Arabic numerals.
- Figures should always be cited in text in consecutive numerical order.
- Figure parts should be denoted by lowercase letters (a, b, c, etc.).
- If an appendix appears in your article and it contains one or more figures, continue the consecutive numbering of the main text. Do not number the appendix figures, "A1, A2, A3, etc." Figures in online appendices (Electronic Supplementary Material) should, however, be numbered separately.

**Figure Captions**

- Each figure should have a concise caption describing accurately what the figure depicts.
- Include the captions in the text file of the manuscript, not in the figure file.
- Figure captions begin with the term Fig. in bold type, followed by the figure number, also in bold type.
- No punctuation is to be included after the number, nor is any punctuation to be placed at the end of the caption.
- Identify all elements found in the figure in the figure caption; and use boxes, circles, etc., as coordinate points in graphs.
- Identify previously published material by giving the original source in the form of a reference citation at the end of the figure caption.

**Figure Placement and Size**

- When preparing your figures, size figures to fit in the column width.
- For most journals the figures should be 39 mm, 84 mm, 129 mm, or 174 mm wide and not higher than 234 mm.
- For books and book-sized journals, the figures should be 80 mm or 122 mm wide and not higher than 198 mm.

**Permissions**

If you include figures that have already been published elsewhere, you must obtain permission from the copyright owner(s) for both the print and online format. Please be aware that some publishers do not grant electronic rights for free and that Springer will not be able to refund any costs that may have occurred to receive these permissions. In such cases, material from other sources should be used.

**Accessibility**

- In order to give people of all abilities and disabilities access to the content of your figures, please make sure that
- All figures have descriptive captions (blind users could then use a text-to-speech software or a text-to-Braille hardware)
Patterns are used instead of or in addition to colors for conveying information (colorblind users would then be able to distinguish the visual elements)

Any figure lettering has a contrast ratio of at least 4.5:1

**Electronic Supplementary Material**

Springer accepts electronic multimedia files (animations, movies, audio, etc.) and other supplementary files to be published online along with an article or a book chapter. This feature can add dimension to the author’s article, as certain information cannot be printed or is more convenient in electronic form.

**Submission**
- Supply all supplementary material in standard file formats.
- Please include in each file the following information: article title, journal name, author names; affiliation and e-mail address of the corresponding author.
- To accommodate user downloads, please keep in mind that larger-sized files may require very long download times and that some users may experience other problems during downloading.

**Audio, Video, and Animations**
- Always use MPEG-1 (.mpg) format.

**Text and Presentations**
- Submit your material in PDF format; .doc or .ppt files are not suitable for long-term viability.
- A collection of figures may also be combined in a PDF file.

**Spreadsheets**
- Spreadsheets should be converted to PDF if no interaction with the data is intended.
- If the readers should be encouraged to make their own calculations, spreadsheets should be submitted as .xls files (MS Excel).

**Specialized Formats**
- Specialized format such as .pdb (chemical), .wrl (VRML), .nb (Mathematica notebook), and .tex can also be supplied.

**Collecting Multiple Files**
- It is possible to collect multiple files in a .zip or .gz file.

**Numbering**
- If supplying any supplementary material, the text must make specific mention of the material as a citation, similar to that of figures and tables.
- Refer to the supplementary files as “Online Resource”, e.g., "... as shown in the animation (Online Resource 3)", “... additional data are given in Online Resource 4”.
- Name the files consecutively, e.g. “ESM_3.mpg”, “ESM_4.pdf”.

**Captions**
- For each supplementary material, please supply a concise caption describing the content of the file.

**Processing of supplementary files**
- Electronic supplementary material will be published as received from the author without any conversion, editing, or reformatting.

**Accessibility**
In order to give people of all abilities and disabilities access to the content of your supplementary files, please make sure that

- The manuscript contains a descriptive caption for each supplementary material
- Video files do not contain anything that flashes more than three times per second (so that users prone to seizures caused by such effects are not put at risk)

**DOES SPRINGER PROVIDE ENGLISH LANGUAGE SUPPORT?**

Manuscripts that are accepted for publication will be checked by our copyeditors for spelling and formal style. This may not be sufficient if English is not your native language and substantial editing would be required. In that case, you may want to have your manuscript edited by a native speaker prior to submission. A clear and concise language will help editors and reviewers concentrate on the scientific content of your paper and thus smooth the peer review process.

The following editing service provides language editing for scientific articles in all areas Springer publishes in:

- Edanz English editing for scientists

Use of an editing service is neither a requirement nor a guarantee of acceptance for publication. Please contact the editing service directly to make arrangements for editing and payment.

- Edanz English editing for scientists

**For Authors from China**

文章在投稿前进行专业的语言润色将对作者的投稿进程有所帮助。作者可自愿选择使用Springer推荐的编辑服务，使用与否并不作为判断文章是否被录用的依据。提高文章的语言质量将有助于审稿人理解文章的内容，通过对学术内容的判断来决定文章的取舍，而不会因为语言问题导致直接退稿。作者需自行联系Springer推荐的编辑服务公司，协商编辑事宜。

- 理文编辑

**For Authors from Japan**

ジャーナルに論文を投稿する前に、ネイティブ・スピーカーによる英文校閲を希望されている方には、Edanz社をご紹介しています。サービス内容、料金および申込方法など、日本語による詳しい説明はエダンズグループジャパン株式会社の下記サイトをご覧ください。

**AFTER ACCEPTANCE**

Upon acceptance of your article you will receive a link to the special Author Query Application at Springer’s web page where you can sign the Copyright Transfer Statement online and indicate whether you wish to order OpenChoice, offprints, or printing of figures in color.

Once the Author Query Application has been completed, your article will be processed and you will receive the proofs.
Open Choice
In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer’s online platform SpringerLink.

Copyright transfer
Authors will be asked to transfer copyright of the article to the Publisher (or grant the Publisher exclusive publication and dissemination rights). This will ensure the widest possible protection and dissemination of information under copyright laws.

Open Choice articles do not require transfer of copyright as the copyright remains with the author. In opting for open access, the author(s) agree to publish the article under the Creative Commons Attribution License.

Offprints
Offprints can be ordered by the corresponding author.

Color illustrations
Online publication of color illustrations is free of charge. For color in the print version, authors will be expected to make a contribution towards the extra costs.

Proof reading
The purpose of the proof is to check for typesetting or conversion errors and the completeness and accuracy of the text, tables and figures. Substantial changes in content, e.g., new results, corrected values, title and authorship, are not allowed without the approval of the Editor. After online publication, further changes can only be made in the form of an Erratum, which will be hyperlinked to the article.

Online First
The article will be published online after receipt of the corrected proofs. This is the official first publication citable with the DOI. After release of the printed version, the paper can also be cited by issue and page numbers.
