O’Reilly, Psy.D., Cynthia A. Riccio, Ph.D., Karin Walsh, Psy.D., Ted Wasserman, Ph.D.

The Journal of Pediatric Neuropsychology is the official journal of the American Academy of Pediatric Neuropsychology. This peer-reviewed journal publishes original research focused on the needs of children and adolescents with neurodevelopmental or neurocognitive disorders. Manuscripts should have practical applications for a pediatric population in clinical, school, and/or forensic settings. Topics the Journal may consider publishing include neuropsychological assessment, evidence-based interventions, neurodevelopment, neurorehabilitation, psychopharmacology, neuroimaging, biomarkers, ethical and legal issues, test construction and psychometrics, and hospital to home and school transitions. Case studies and theoretical reviews will be considered only if they result in substantial contributions to the field. Please contact the Editor-in-Chief, Andrew Davis (davis@bsu.edu) regarding commentaries, special issues, and book and test reviews.

Manuscripts must conform to the Instructions for Authors available on the journal’s homepage (http://www.springer.com/psychology/neuropsychology/journal/40817) and must be submitted online to www.editorialmanager.com/jpnp.
