SPECIAL ISSUE ON
Key Problems in Long-Distance Learning and Training

Overview:

As the world of technology offers a rapidly increasing number of outlets for creativity and communications, a worldwide education is undergoing a significant renovation. Each day more classrooms can be accessed from anywhere, at any time. So it is the time to aim at exploring e-learning solutions that spark the attention as well as imagination of students through interactivity, immersion, variety of content, or cutting-edge technologies. Moreover, papers of solution of network service, QoS, organization and structure in e-learning and e-education are encouraged, such as long distance signal transmission and cloud and fog computing in e-learning.

Topics

Topics of interest include, but are not limited to, the following scope:

| Accessibility and usability of web-based instruction | • Best Practices |
| Assessment | • Big Data in e-learning |
| Augmented reality solutions | • Blended learning |
| Collaborative learning and social networks | • Cloud and fog computing in e-learning |
| High-impact practices in e-learning | • Social and organizational perspectives |
| Informal e-Learning solutions | • Student engagement |
| Learning analytics | • e-Educational Models, Frameworks and Platforms |
| Massive Open Online Course | • Virtual Learning Environments |
| Mobile learning | • QoS of e-learning |
| Security and privacy in education and e-learning systems |

Important Dates

- Manuscript submission deadline: Friday, March 15th 2018
- Notification of acceptance: Friday, March 2nd 2018
- Submission of final revised paper: Friday, May 4th 2018
- Publication of special issue (tentative): June 2019
