**Affiliation and Disclosure Statements**

**Hilary P. Grocott, MD, FRCPC, FASE**  
Editor-in-Chief  
*Canadian Journal of Anesthesia*

St. Boniface Hospital, University of Manitoba  
CR3008-369 Tache Avenue  
Winnipeg, MB, Canada R2H 2A6  
Phone: (450)-477-7607  
Fax: (450)-477-8472  
E-mail: cja_office@cas.ca  
Web site: www.springer.com/12630

Professor, Departments of Anesthesia and Surgery, University of Manitoba  
Adjunct Professor of Anesthesiology, Duke University

*Areas of research & clinical interest:* Dr. Grocott’s areas of clinic and research interests include Cardiothoracic Anesthesiology and Transesophageal Echocardiography. These interests have included extensive experimental research in cardiopulmonary bypass, with particular interest in the cerebral consequences of cardiac surgery and neuroprotection. In addition, extensive clinical research experience has focused upon outcomes following cardiac surgery, notably neurologic but also end-organ dysfunction outcomes related to inflammation, bleeding and renal dysfunction.

*Competing interests:* None declared.

---

**Gregory L. Bryson, MD, FRCPC**  
Deputy Editor-in-Chief  
*Canadian Journal of Anesthesia*

Associate Professor, Department of Anesthesiology, University of Ottawa.  
Director of Research, Department of Anesthesiology – The Ottawa Hospital.  
Member, Research Advisory Committee, Canadian Anesthesiologists' Society.  
Secretary, Perioperative Medicine Section, Canadian Anesthesiologists' Society.

*Research interests:* Cognitive dysfunction, care of the aging surgical patient, perioperative cardiac morbidity, preoperative evaluation.

*Competing interests:* None.
Steven B. Backman, MDCM, PhD, FRCPC
Professor, McGill University Department of Anesthesia
Associate Editor
*Canadian Journal of Anesthesia*

*Areas of research interests:* Dr. Backman’s research interests have focused on neural modulation of the cardiovascular and respiratory systems, central mechanisms of anesthetic drugs, physiological and pharmacological properties of the transplanted heart, and interaction of anesthetic drugs with the autonomic nervous system.

*Competing interests:* Dr. Backman has received funding from the Canadian Anesthesiologists’ Society, Canadian Institutes of Health Research, Association des Anesthésiologistes du Québec, McGill University Health Sciences Centre Research Institute, Pfizer, Glaxo Wellcome, Organon, Abbott Laboratories and GlaxoSmith Kline. He holds no equity position in any pharmaceutical or medical equipment manufacturing company.

Philip M. Jones, MD, MSc (Clinical Trials), FRCPC
Associate Editor
*Canadian Journal of Anesthesia*

Associate Professor, Department of Anesthesia & Perioperative Medicine, Western University
Associate Professor, Department of Epidemiology & Biostatistics, Western University

Member, Research Advisory Committee, Canadian Anesthesiologists' Society

*Areas of research and clinical interest:* Dr Jones has a clinical practice which is largely focussed on cardiac care. His research interests include pragmatic randomized clinical trials, cardiac anesthesia, clinical trial methodology & biostatistics, and perioperative medicine.

*Competing interests:* None.

Sangeeta Mehta, MD, FRCPC
Associate Editor (Critical Care)
*Canadian Journal of Anesthesia*

Critical Care Physician, Sinai Health System
Clinician Scientist, Lunenfeld Tanenbaum Research Institute
Professor of Medicine, University of Toronto
Areas of research and clinical interest: Dr. Mehta is a Critical Care Physician in the Medical-Surgical ICU at Mount Sinai Hospital. Her research foci include the administration of sedation and analgesia, delirium, and restraint use in mechanically ventilated, critically ill patients; and ICU care and outcomes of patients with hematologic malignancy and hematopoietic cell transplants.

Competing interests: None.

A.-Stéphane Lambert, MD, MBA, FRCPC
CPD Editor
Canadian Journal of Anesthesia

Associate Professor and Division Chief,
Cardiac Anesthesiology and Critical Care
University of Ottawa Heart Institute

Chair, Cardiovascular-Thoracic Section, Canadian Anesthesiologist’ Society

Dr. Lambert’s areas of interest include cardiovascular anesthesiology, transesophageal echocardiography, specifically the 2D and 3D evaluation of the mitral and aortic valves, continuing professional development and leadership in health care.

Competing interests: None declared.

Étienne de Médicis, MD, MSc, FRCPC
French Language Editor
Canadian Journal of Anesthesia

Professeur d’enseignement clinique titulaire, département d’anesthésiologie, Université de Sherbrooke.

Member, Research Advisory Committee, Canadian Anesthesiologists’ Society and CAS Archives & Artifacts Committee.

Areas of expertise: Chronic pain and cardiac anesthesia.

Competing interests: None declared.
Mrinalini Balki, MBBS, MD
Editorial Board Member
Canadian Journal of Anesthesia

Mount Sinai Hospital
Toronto, Ontario

Associate Professor, Department of Anesthesia and Pain management, University of Toronto
Associate Professor, Department of Obstetrics and Gynaecology (cross appointment), University of Toronto
Faculty Member, Wilson centre, University of Toronto
Faculty Member, SimSinai, Mount Sinai Hospital, Toronto, Ontario

Research interests: Obstetric anesthesia and analgesia, postpartum hemorrhage, cesarean delivery, nausea/vomiting, spinal ultrasound, obstetric simulation, maternal mortality and morbidity. Dr. Balki’s basic science program focuses on physiology of myometrial contractions with various uterotonics and oxytocin-induced desensitization phenomenon.

Competing interests: Dr. Balki has received research funding from the Canadian Anesthesiologists’ Society (Career Scientist Award, Dr. RA Gordon Research Award, Research Award), University of Toronto (Departments of Anesthesia and Obstetrics & Gynaecology), Mount Sinai Hospital foundation, Dean’s Fund, Inaugural SOAP/ Gertie Marx Research & Education Grant, Ontario AHSC AFP Innovation Funds from the Ministry of Health and Long-Term Care.

M. Dylan Bould, MB ChB, MEd
Editorial Board Member
Canadian Journal of Anesthesia

Assistant Professor, University of Ottawa Department of Anesthesiology
Pediatric Anesthesiologist, Children's Hospital of Eastern Ontario, Ottawa

Research interests: Medical education, global health, pediatric anesthesia, pediatric cardiovascular anesthesia

Competing interests: None.
Matthew T.V. Chan, MB BS, PhD, FANZCA, FHKCA, FHKAM
Editorial Board Member
*Canadian Journal of Anesthesia*

Professor, Department of Anaesthesia and Intensive Care, The Chinese University of Hong Kong, Prince of Wales Hospital, Shatin, New Territories, Hong Kong Special Administrative Region, China

*Areas of research interest:* neuroanesthesia, perioperative monitoring of the brain and spine, clinical trials, clinical epidemiology and mechanisms of chronic postsurgical pain

*Competing interests:* None.

Mark W. Crawford, MBBS, FRCPC
Editorial Board Member
*Canadian Journal of Anesthesia*

Anesthesiologist-in-Chief, The Hospital for Sick Children
Curtis Joseph and Harold Groves Chair in Anesthesia and Pain Medicine
Department of Anesthesia and Pain Medicine, The Hospital for Sick Children

Professor of Anesthesia, University of Toronto
Senior Associate Scientist, The Hospital for Sick Children Research Institute

*Research interests:* Dr. Crawford’s research interests relate to clinical outcomes in pediatric anesthesia.

*Competing interests:* None.

Franklin Dexter, MD, PhD
Guest Editor (Statistics)
*Canadian Journal of Anesthesia*

Franklin Dexter is Director of the Division of Management Consulting and Professor in the Department of Anesthesia, University of Iowa. He performs research in the science of anesthesia group and operating room management, including statistical methods to analyze management and social sciences data in the field. As listed at www.franklindexter.net/FAQ/FAQ_a1.pdf, Dr. Dexter has tenure and receives no funds personally, including honoraria, other than his salary and allowable expense reimbursements from the University of Iowa. He and his family have no financial holdings in any company related to his work, other than indirectly through mutual funds for retirement. Income from the Division's professional services, including that for the
Canadian Journal of Anesthesia, is used to fund Division research. A complete list of consultations is in his curriculum vitae at www.FranklinDexter.net/Contact_Info.htm

John C. Drummond, MD, FRCPC
Guest Editor
Canadian Journal of Anesthesia

Professor of Anesthesiology,
University of California, San Diego;
Staff Anesthesiologist,
VA Medical Center San Diego

Areas of research & clinical interest: Dr. Drummond’s area of clinical interest is Anesthesia for Neurosurgery. His research activities have included preclinical and clinical investigations examining the effects of anesthetic agents on cerebral physiology, the efficacy of anesthetic agents as cerebral protectants and the interaction of anesthetic agents and adjuvants with electrophysiologic monitoring techniques.

Competing interests: None declared.

Ronald B. George, MD, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Associate Professor, Dalhousie University
Associate Medical Director of Research
Department of Anesthesia, Pain Management, and Perioperative Medicine

Research interests: Obstetrical Anesthesia, including labour analgesia, postoperative analgesia, acute pain, epidural anesthesia and analgesia, cesarean delivery, maternal health, global health, women’s rights to analgesia.

Competing interests: None.

Donald E. G. Griesdale, MD, MPH, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Associate Professor
University of British Columbia
Department of Anesthesiology, Pharmacology & Therapeutics Department of Medicine, Divisions of Critical Care Medicine & Neurology

Associate Professor, Department of Anesthesiology, Pharmacology & Therapeutics, University of British Columbia, Vancouver BC, Canada

Associate Professor, Divisions of Critical Care Medicine and Neurology, Department of Medicine, University of British Columbia, Vancouver BC, Canada

Associate Scientist, Centre for Clinical Epidemiology and Evaluation, Vancouver Coastal Health Research Institute, Vancouver BC, Canada

Research Interests: Dr. Donald Griesdale is an anesthesiologist and intensive care physician at Vancouver General Hospital. Following his clinical training, he completed his Masters of Public Health in Quantitative Methods from the Harvard School of Public Health. His clinical and academics areas of interest include neurocritical care of patients with traumatic brain injury and cerebral autoregulation in patients with hypoxemic ischemic brain injury following cardiac arrest.

Competing interests: Dr. Griesdale is a clinical scientist and is currently funded by the Heart and Stroke Foundation of Canada. He has previously held operational funding from the Canadian Institutes of Health Research (CIHR) and the Canadian Anesthesiologists’ Society (CAS). He previously received salary support from the Vancouver Coastal Health Research Institute having won a Clinician Scientist Award in 2014. He has also previously won a Canadian Anesthesiologists’ Society. He is an active member of the Canadian Critical Care Trials Group.

David Mazer, MD, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Professor, Department of Anesthesia, University of Toronto

Professor, Department of Physiology (cross appointment), University of Toronto

Research interests: Cardiovascular physiology, blood transfusion and hemostasis, organ protection, anesthesia, cardiac metabolism, critical care, cardiac surgery.

Dr. Mazer’s research interests include cardiac anesthesia and critical care. His basic science program focuses on perioperative blood conservation, cardiac physiology and metabolism and perioperative organ protection. Using integrative and molecular approaches, he investigates the adverse effects of cardiopulmonary bypass on renal function, organ preservation, and transfusion/hemostatic therapies. He is engaged in
translational research as an investigator in both pre-clinical and clinical studies in these areas.

*Competing interests:* Dr. Mazer has received research funding or consulting fees from the Canadian Institutes of Health Research, the Heart & Stroke Foundation of Ontario, Physicians Services Inc, University of Toronto, St. Michael's Hospital, Amgen, Quark, Thrasos, Allocure, Boehringer-Ingelheim, Octapharma, CSL-Behring, Fresenius-Kabi and Canadian Medical Protective Association.

Dr. Mazer has no equity positions in any companies related to anesthesia or critical care.

---

**Alan Merry, ONZM, FANZCA, FFPMANZCA, FRCA, Hon FFFLM**  
Editorial Board Member  
*Canadian Journal of Anesthesia*

Alan Merry practices in anesthesia and chronic pain management at Auckland City Hospital. He is Head of the School of Medicine at the University of Auckland. He is Chair of the Board of the NZ Health Quality and Safety Commission and on the Boards of the World Federation of Societies of Anaesthesiologists and Lifebox, both of which aims to improve standards of anesthesia and surgical care in low-income areas of the world. His books, book chapters and papers in peer-reviewed journals reflect interests in human factors, patient safety and simulation.

---

**Thomas C. Mutter, MD, MSc, FRCPC**  
Editorial Board Member  
*Canadian Journal of Anesthesia*

Assistant Professor, Department of Anesthesiology, University of Manitoba

Staff Anesthesiologist and Medical Manager, Quality Assurance, Department of Anesthesiology, Winnipeg Regional Health Authority

*Research interests:* Preoperative evaluation and risk stratification, research methodology, and the epidemiology of postoperative morbidity.

*Clinical practice:* Adult non-cardiac anesthesia in tertiary care and ambulatory settings.

*Competing interests:* None.
Sheila Riazi, MSc, MD, FRCPC  
Editorial Board Member  
*Canadian Journal of Anesthesia*

Associate Professor, Department of Anesthesiology, University of Toronto.  
Director, Malignant Hyperthermia investigation Unit, Toronto General Hospital.  
Affiliated Scientist, Toronto General Research Institute Member, Member of Board of Directors and Research Advisory Committee, Malignant Hyperthermia Association of United States.

*Research interests:* Malignant hyperthermia, skeletal muscle physiology, congenital myopathies and regional anesthesia.

*Competing interests:* None.

---

Stephan K.W. Schwarz, MD, PhD, FRCPC  
Editorial Board Member  
*Canadian Journal of Anesthesia*

Professor and Dr. Jean Templeton Hugill Chair in Anesthesia  
The University of British Columbia  
Department of Anesthesiology, Pharmacology & Therapeutics  
Staff Anesthesiologist & Director of Anesthesia Research, St. Paul’s Hospital

*Areas of expertise/interest:* Neuropharmacology (including, in particular, local anesthetic & analgesic neuropharmacology); whole-cell patch clamp brain slice electrophysiology; regional anesthesia; general adult anesthesia; perioperative medicine; acute pain; RCTs; and experimental design/analysis.

*Competing interests:* Dr. Schwarz is a member of the Research Advisory Committee of the Canadian Anesthesiologists' Society. He is a past recipient of the Canadian Anesthesiologists' Society (CAS) Research Award, the CAS/Abbott Laboratories Ltd. Career Scientist Award in Anesthesia, and the CAS Research Award Neuroanesthesia in Memory of Adrienne Cheng. He has received research funding from the Canadian Foundation for Innovation, the British Columbia Knowledge Development Fund, the Canadian Institutes of Health Research, the Dr. Jean Templeton Hugill Endowment for Anesthesia Memorial Fund (UBC), and the St. Paul's Hospital Department of Anesthesia (Vancouver, B.C.). In 2007, he won a Pfizer Neuropathic Pain Research Award (independently peer-reviewed public operating grant competition sponsored by Pfizer Canada Inc.). For another investigator-initiated curiosity-driven study, he received in 2013 an aliquot of pregabalin free of charge through a Pfizer Canada Compound Transfer Program application (Kirkland, Quebec, Canada). Dr. Schwarz has been advised by his investment manager that his discretionary portfolio may variably include holdings from the medical/biotechnology sectors; Dr. Schwarz similarly assumes that his UBC Pension
Plan holdings may include variable positions from such sectors over time. None of such holdings relate to his work, and Dr. Schwarz has never worked for any medical/biotechnology/pharmaceutical companies nor has he received personal honoraria, consulting fees, travel reimbursements, or other personal benefits from such commercial entities. On rare occasions, he has received a small honorarium for participation in online surveys solicited by market research firms.

Robert Sladen, MBChB, MCRP(UK), FRCP(C), FCCM
Editorial Board Member
Canadian Journal of Anesthesia

Dr. Robert Sladen is Allen Hyman Professor Emeritus of Critical Care Anesthesiology at Columbia University Medical Center and the College of Physicians & Surgeons of Columbia University, NY. He is a Past Chair of the Board of Trustees of the International Anesthesiology Research Society (IARS), Past President of the Society for Critical Care Anesthesia (SOCCA) and a recipient of the Shubin-Weil Master Clinician Award from the Society of Critical Care Medicine (SCCM). His clinical and research interests have focused on cardiovascular and surgical critical care, mechanical circulatory support, postoperative analgesia and sedation, and renal protection.

Disclosure: Dr. Sladen is on the Speakers’ Bureau of Orion Pharma (Finland).

Ban C.H. Tsui, MSc, MD, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Professor, Director of Clinical Research, Department of Anesthesiology and Pain Medicine, Stollery Children's Hospital/University of Alberta Hospital,

Pediatric and Adult Anesthesiologist, Alberta Heritage Foundation for Medical Research Clinical Scholar,

Currently on sabbatical leave at Stanford University, California, USA.

Areas of research and clinical interest: The primary objective of Dr. Tsui’s research is to transform regional anesthesia from an “art” into a reliable and reproducible “science” by further exploring the basic scientific and clinical aspects of electrophysiologic signal monitoring and integrating this with the latest advances in ultrasound. Dr. Tsui has a strong interest in mentoring and motivating residents and anesthesiologist fellows to incorporate research into their practice.

Competing interests: Dr. Tsui has received Clinical Scholar funding from the Alberta Heritage Foundation for Medical Research (AHFMR) since 2002. Dr. Tsui is the
Alexis F. Turgeon, MD, MSc(Epid), FRCPC
Editorial Board Member
*Canadian Journal of Anesthesia*

Associate Professor
Department of Anesthesiology and Critical Care Medicine
Division of Critical Care Medicine
Université Laval

Director of Research
Department of Anesthesia and Division of Critical Care Medicine
Université Laval

Canada Research Chair in Critical Care Neurology and Trauma

Director, Cochrane Canada Francophone

Co-Chair, Canadian Traumatic Brain Injury Research Consortium (CTRC)

Staff Anesthesiologist and Critical Care Physician
CHU de Québec - Université Laval
Université Laval

*Areas of research interest:* Dr. Turgeon’s research interests include trauma, critical care medicine, transfusions, neuroanesthesia, epidemiology, and especially neurocritical care and traumatic brain injury. His research program focuses on neurological prognosis in patients with severe traumatic brain injury and level of care decisions, as well as blood product utilization in neurocritically ill patients. Dr. Turgeon also has a particular interest and expertise in systematic reviews and meta-analyses in perioperative and critical care medicine.

*Competing interests:* Dr. Turgeon is a clinician scientist supported by the Canadian Institutes of Health Research (CIHR) and the Fonds de la Recherche du Québec - Santé (FRQS). He is an active member of the Canadian Critical Care Trials Group (CCCTG) and the Perioperative Anesthesia Clinical Trials (PACT) group, and is the Co-Chair of the Canadian Traumatic Brain Injury Research Consortium (CTRC), a CIHR-funded initiative. Dr Turgeon is the Director of Cochrane Canada Francophone. He has received funding, past or present, as Principal Investigator, Co-Principal Investigator, or Co-Investigator from the Canadian Institutes of Health Research, Fonds de la Recherche du Québec.
Québec - Santé, Heart and Stroke Foundation, Canadian Anesthesiologists’ Society, Ontario Neutrotrauma Foundation, Fondation d'anesthésiologie et réanimation du Québec, Fondation du CHA - Hôpital de l'Enfant-Jésus and the Fondation du CHU de Québec - Université Laval. Dr. Turgeon has not received funding or honoraria from any pharmaceutical company or entity involved with the pharmaceutical industry, and does not hold an equity position in a company involved in health care.

Duminda N. Wijeysundera, MD, PhD, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Associate Professor, Department of Anesthesia, University of Toronto
Staff, Department of Anesthesia and Pain Management, Toronto General Hospital
Scientist, Li Ka Shing Knowledge Institute of St. Michael’s Hospital
Associate Professor, Institute of Health Policy Management and Evaluation, University of Toronto
Adjunct Scientist, Institute for Clinical Evaluative Sciences

Areas of expertise: perioperative cardiac complications, preoperative risk stratification, observational study methodology, health services research, randomized controlled trials, clinical epidemiology

Competing interests: None.

Anne Wong, MD, PhD, FRCPC
Editorial Board Member
Canadian Journal of Anesthesia

Professor and Associate Chair of Education
Department of Anesthesia, McMaster University

Assistant Dean, Program for Faculty Development
Faculty of Health Sciences, McMaster University

Research interests: Medical education, intrinsic CanMeds roles (in particular: professional, leader, communicator, scholar), faculty development, qualitative methodologies and global health.

Competing interests: None declared.
