SUBMISSION DEADLINE EXTENDED TO JANUARY 31, 2016

Special issue of The International Journal of Life Cycle Assessment

Call for papers for a special issue: Promoting sustainability in emerging economies via life cycle thinking

Emerging economies are developing fast and are also taking lessons from the already developed ones vis-à-vis sustainability. Green growth, the low carbon society and cleaner production are ideas that are often discussed. Life cycle thinking is a key concept that binds these ideas together, and life cycle assessment (LCA) is a useful analytical tool, not only as environmental LCA, but also life cycle costing (LCC), social LCA and other related tools such as material flow analysis. This special issue aims to bring together experiences from emerging economies related to the application of life cycle assessment-based tools via case studies, industrial applications, policy applications and even new methods or adaptation of existing ones to the local context. Under challenging conditions in emerging economies (e.g. the need for economic growth and industrial development, and low environmental awareness), lessons learned from this special issue will be beneficial both for developed and emerging economies.

How to Submit
Manuscripts should be original, written in English, and previously unpublished. The suggested length per article is between 3,500 and 6,000 words excluding references – resulting in about 10 pages in the journal. Ancillary data relevant to articles can be posted on the journal's web site in the form of supporting information. Submission implies that the manuscript has not been submitted for publication elsewhere and that it will not be submitted elsewhere while the review process is underway.
All papers are subject to peer-review by two experts. When submitting your paper, you will be asked for suggested names of reviewers.
Papers should be submitted electronically via https://www.editorialmanager.com/jlca/. Please indicate that this is a submission for the “Emerging economies” issue on the author checklist during the submission process. Details about the preparation of the manuscript can be obtained from the journal's Web page.

Contact Info
Please submit articles for this special issue by January 31, 2016. The Guest Editors for this issue are:

- Shabbir H. Gheewala, The Joint Graduate School of Energy and Environment, King Mongkut’s University of Technology Thonburi, Bangkok, Thailand, shabbir_g@jgsee.kmutt.ac.th
- Thapat Silalertruksa, The Joint Graduate School of Energy and Environment, King Mongkut’s University of Technology Thonburi, Bangkok, Thailand
• Pomthong Malakul, The Petroleum and Petrochemical College, Chulalongkorn University, Bangkok, Thailand
• Trakarn Prapaspongsa, Mahidol University, Nakhon Pathom, Thailand
The International Journal of Life Cycle Assessment
