

Disclosure of Interest and Ethical Standards: The Behavior Analyst

Disclosure of Interest

When authors submit a manuscript they are responsible for disclosing all financial and personal relationships that might bias their work. On the cover page, each individual author must indicate whether or not they have a financial relationship with the organization that sponsored the research. If multiple authors declare no COI, this can be done in one sentence, ie, Author X, Author Y, and Author Z declare that they have no conflict of interest. Please include this statement on your cover page.

Ethical Standards

For studies with human or animal subjects, please indicate on the cover page that 'The research protocols described in this paper were reviewed and approved by the responsible committee on such research, or determined to be exempt from review by the committee.'

Acknowledgments

Acknowledgments should be included on the cover page as well. For each source of funds, both the research funder and the grant number should be given.
