### Authorship

Submission of a manuscript implies

- that the work described has not been published before;
- that it is not under consideration for publication elsewhere;
- that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out;
- that, if and when the manuscript is accepted for publication, the authors agree to automatically transfer the copyright to the publisher; and
- that the manuscript will not be published elsewhere in any language without the consent of the copyright holder.

### The Editorial Process

Manuscripts (two copies) and correspondence should be addressed to the editorial office.

Incoming manuscripts are acknowledged immediately. A paper should not exceed 20 printed pages, in general, including tables and figures. The authors will be notified of the Editor's publishing decision once the refereeing process has been completed.

Manuscripts will not be returned. 25 reprints (without covers) of published papers will be sent to authors free of charge; additional reprints may be ordered from the Publisher.

### Format of Manuscripts

#### Abstract

Manuscripts must include an abstract in English that summarizes the principle techniques and conclusions of the paper in relation to known results.

### **Keywords and Subject Classification**

Keywords and where appropriate AMS subject classifications must accompany each article.

### **Abbreviated Title**

It is necessary to indicate an abbreviated title, which will be used as a running head (no more than 60 characters including spaces).

### **Tables and Figures**

Tables and figures should be limited to those required for clear communication and are to be referenced in the text. As figures may be reduced for printing, the lettering should not be too small. Drawings should be on good quality paper and marked clearly in black.

### **References**

The literature should be referred to by numbers in the text in square brackets. In the bibliography, the references should be listed in alphabetical order or in order of appearance at the end of the manuscript. References should contain full article titles, chapter titles of books as well as first and last pages of each article. Standard abbreviations of journal names should be used.

*Examples:*

[1]

J.H. Merkin and D.B. Ingham, Mixed convection boundary layer similarity solutions on a horizontal surface, *J. Appl. Math. Phys. (ZAMP)* **38** (1987), 102–115.

[2]

M. Bath, *Introduction to Seismology*. Birkhäuser, Basel 1973.

[3]

J. Lions, Pointwise control for distributed systems. *In Control and Estimation in Distributed Parameter Systems*, H.T. Banks, ed, SIAM, Philadelphia 1992, 1–39.

### **Submission of Manuscripts**

#### **ZAMP Editorial Office**

P.O. Box 133

CH-4010 Basel, Switzerland

Tel.: +41 61 205 01 61; Fax: +41 61 205 07 91

e-mail: [zamp@birkhauser.ch](mailto:zamp@birkhauser.ch)

Authors are encouraged to submit their papers on diskette. Delivering manuscripts in diskette form may substantially facilitate the publication process provided certain points are taken into consideration:

- Texts on diskette should be delivered in either DOS or

Macintosh format.

- The final hard copy of the manuscript should be submitted together with the diskette. The electronic and printed versions must be absolutely identical.
- All pictorial and graphic illustrations should be delivered as hard copy originals and must be 200 % of the final printed size.
- Digital drawings and graphs should be submitted in Encapsulated PostScript (EPS).  
Do not fail to include a hard copy for ready viewing.
- Back-up copies of the diskettes must be kept.
- Diskettes must be adequately protected for transport.

## To Authors Using TeX

All common dialects of TeX are welcome (plain TeX, AMS-TeX, L<sup>A</sup>TeX and AMS-L<sup>A</sup>TeX). Those using AMS-TeX are requested to apply «amspt.sty», those using L<sup>A</sup>TeX should apply «article» style. Font size of the main text is 10 point. The other main features are:

```
\hsize=126mm
```

```
\vsize=180mm
```

```
\parindent=5mm
```

```
\def\lhead{ } %% for author's initials and surname
```

```
\def\rhead{ } %% for abbreviated title
```

## To Authors Not Using TeX

Authors not using TeX are requested to send their manuscript in two separate versions: with standard text format as offered by your word processing program, and in addition in Rich Text Format (RTF) or as a *ASCII file* (most editors have an option to save files in such form).
