Manuscripts should be submitted to:

The Editor-in-Chief
Gerald I. Zatuchni, MD
Professor of Clinical Obstetrics and Gynecology
Northwestern University Medical School
Suite 1000, 680 N Lakeshore Drive
Chicago, IL 60611, USA

A manuscript must be concise and easy to read. It should be typed double-spaced on good quality paper and submitted in triplicate. On the title page, include the full names of authors, academic or professional affiliations, and complete address for the corresponding author. Reference lists, tabular material, and figure legends should be typed on separate sheets. Tables are numbered in order of their mention with arabic numerals. Each table should have a brief descriptive title and be easy to read. Please use horizontal rules only. Full-length submissions should include an Abstract of up to 200 words.

References

Citation in the text is by square brackets, i.e. [1], corresponding to the numbered reference list at the end of the article. (Unpublished work, work in preparation or personal communications should not be used as references but merely mentioned in the text.) References should be typed double-spaced and should be arranged consecutively, as they appear in the text. Periodical abbreviations should follow those given by Index Medicus. References should be styled in the Vancouver system (see, for instance, Br Med J. 1991;302:338–41. or N Engl J Med. 1991;324:424–8.). Examples are:

(a) Journal article

(b) Chapter in a book

(c) Book, personal author(s)

(d) Conference proceedings

(e) Dissertation

Illustrations

For line artwork, submit either glossy prints or black−ink drawings of professional quality, preferably 1.5 to 2 times their final reproduced size: micrographs or other glossy photographs must be of excellent quality. Laserprinted computer−generated graphics are acceptable. If a figure comprises more than one glossy photograph, assemble it in one envelope without mounting and mark A, B, C, etc. Duplicates may be photocopies. On the back of each illustration, give the author’s name, name of figure, and indicate ‘top’. Micrographs should include a statement of magnification either on the print or in the figure legend. Color plates may be included at the author’s expense.

Proofs and Offprints

The corresponding author will receive proofs, which should be corrected and returned within 7 days of receipt, or the article will be published without author’s corrections. The author is responsible for proofreading the manuscript. The publisher is not responsible for any errors not marked by the author on proof. The corresponding author will receive 25 free offprints automatically, and will have the opportunity to purchase further offprints.
