

Manuscript Submission

Legal requirements

Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

Permissions

Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain **permission** from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the author(s).

How to submit

Authors should submit their manuscripts **online**. Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Please connect directly to the site and upload all of your manuscript files following the instructions given on the screen.

<http://www.editorialmanager.com/mind>

Reviewing procedure

If you are requesting blind refereeing, the author's name and address should be given on a separate sheet. Self-identifying citations and references in the article text should either be avoided or left blank when manuscripts are first submitted. **Authors** are responsible for reinserting self-identifying citations and references when manuscripts are prepared for **final** submission.

Article types

The journal publishes general articles, critical exchanges, discussion exchanges, discussions, exchange reviews, and special symposia, as well as special issues devoted to specific topics.

Manuscript Preparation

Title page

The **title page** (separate) should include:

- The name(s) of the author(s)
- A concise and informative title
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, phone and fax numbers of the corresponding author

Abstract

Please provide an **abstract** of 100 – 250 words. The abstract should not contain any undefined abbreviations or unspecified references.

Keywords

Please provide 4 to 6 **keywords** which can be used for indexing purposes.

Language

The journal's language is English. British or American English spelling and terminology may be used, but either one should be followed consistently throughout the article. We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English or French is not your first language.

Text

Text formatting

For submission in **LaTeX**, *Springer* provides a LaTeX macro package.

When using this package, please activate the format [twocolumn], [smallcondensed], [smallextended].

The submission should include the original source (including all style files and figures) and a PDF version of the compiled output. [LaTeX macro package](#)

Heading levels (unnumbered)

Please use no more than three levels of displayed **headings**.

Abbreviations and acronyms

Abbreviations should be defined at first mention and used consistently thereafter.

SI units, numbers

Please always use internationally accepted signs and symbols for units, **SI units**.

Footnotes

Footnotes on the title page are not given reference symbols. Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

Acknowledgments

Acknowledgments of people, grants, funds, etc. should be placed in a separate section before the reference list. The names of funding organizations should be written in full.

References

The list of **References** should only include works that are cited in the text and that have been published or accepted for publication. Personal communications and unpublished works should only be mentioned in the text. Do not use footnotes or endnotes as a substitute for a reference list.

Citation in text

Cite references in the text by *name* and *year* in parentheses. Some examples:

- Negotiation research spans many disciplines (Thompson 1990)
- This result was later contradicted (Becker and Seligman 1996)
- This effect has been widely studied (Abbott 1991; Barakat et al. 1995; Kelso and Smith 1998; Medvec et al. 1993)

- Negotiation research spans many disciplines (Thompson 1990a, b)

List style (APA)

Reference list entries should be alphabetized by the last names of the first author of each work.

Online document

Doe J (1999) Title of subordinate document. In: The dictionary of substances and their effects. Royal Society of Chemistry. Available via DIALOG.

<http://www.rsc.org/dose/title> of subordinate document. Cited 15 Jan 1999

Tables

- All tables are to be numbered using Arab numerals
- Tables should always be cited in text in consecutive numerical order
- For each table, please supply a table heading. The table title should explain clearly and concisely the components of the table
- Identify any previously published material by giving the original source in the form of a reference at the end of the table heading
- Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data) and included beneath the table body

Figures

- All figures are to be numbered using Arab numerals
- Figure parts should be denoted by lowercase letters
- Figures should always be cited in text in consecutive numerical order
- For each figure, please supply a figure caption
- Make sure to identify all elements found in the figure in the caption
- Identify any previously published material by giving the original source in the form of a reference at the end of the caption
- For more information about preparing your illustrations, please follow the hyperlink to the artwork instructions on the right

ESM

If **Electronic supplementary material** (EMS) is submitted, it will be published as received from the author in the online version only. ESM may consist of

- information that cannot be printed: animations, video clips, sound recordings
- information that is more convenient in electronic form: sequences, spectral data, etc.
- large original data, e.g. additional tables, illustrations, etc.
- If supplying any ESM, the text must make specific mention of the material as a citation, similar to that of figures and tables (e.g., “..as shown in Animation 3.”).
- For details on formats and other information, please follow the hyperlink to the specific instructions for electronic supplementary material on the right

After acceptance

Upon **acceptance** of your article you will receive a link to the special Springer web page with questions related to:

Open Choice

Open Choice. In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer’s online platform SpringerLink. We regret that Springer Open Choice cannot be ordered for published articles.

[Springer Open Choice](#)

Copyright

Copyright transfer. Authors will be asked to transfer copyright of the article to the Publisher (or grant the Publisher exclusive publication and dissemination rights). This will ensure the widest possible protection and dissemination of information under copyright laws.

Open Choice articles do not require transfer of copyright as the copyright remains with the author. In opting for open access, they agree to the Springer Open Choice Licence.

Offprints / Reprints

Free and/or additional **offprints** can be ordered by the corresponding author. 25 offprints of each contribution are supplied free of charge to the corresponding author.

Color in print

Online publication of **color illustrations** is free of charge. For color in the print version, authors will be expected to make a contribution towards the extra costs.

Online first

The articles will be published **online** after receipt of the corrected proofs. This is the official first publication citable with the DOI. After release of the printed version, the paper can also be cited by issue and page numbers.

Proof reading

The purpose of the **proof** is to check for typesetting errors and the completeness and accuracy of the text, tables and figures. Substantial changes in content, e.g., new results, corrected values, title and authorship, are not allowed without the approval of the Editor.

After online publication, further changes can only be made in the form of an erratum, which will be hyperlinked to the article.
