

## **Manuscript Submission**

### **Legal requirements**

Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities – tacitly or explicitly – at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

### **Permissions**

Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain **permission** from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the author(s).

### **How to submit**

Authors should submit their manuscripts **online**. Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Please connect directly to the site and upload all of your manuscript files following the instructions given on the screen.

### **Reviewing procedure**

If you are requesting blind refereeing, the author's name and address should be given on a separate sheet. Self-identifying citations and references in the article text should either be avoided or left blank when manuscripts are first submitted. **Authors** are responsible for reinserting self-identifying citations and references when manuscripts are prepared for **final** submission.

### **Article types**

The journal publishes general articles, critical exchanges, discussion exchanges, discussions, exchange reviews, and special symposia, as well as special issues devoted to specific topics.

## **Manuscript Preparation**

### **Title page**

The **title page** (separate) should include:

- The name(s) of the author(s)
- A concise and informative title
- The affiliation(s) and address(es) of the author(s)

## **Language**

The journal's language is English. British or American English spelling and terminology may be used, but either one should be followed consistently throughout the article. We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English or French is not your first language.

## **Text**

### **Text formatting**

For submission in **LaTeX**, *Springer* provides a LaTeX macro package.

When using this package, please activate the format [twocolumn], [smallcondensed], [smallextended].

The submission should include the original source (including all style files and figures) and a PDF version of the compiled output. [LaTeX macro package](#)

### **Open Choice**

**Open Choice.** In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer’s online platform SpringerLink. We regret that Springer Open Choice cannot be ordered for published articles.

### **Copyright**

**Copyright transfer.** Authors will be asked to transfer copyright of the article to the Publisher (or grant the Publisher exclusive publication and dissemination rights). This will ensure the widest possible protection and dissemination of information under copyright laws.

Open Choice articles do not require transfer of copyright as the copyright remains with the author. In opting for open access, they agree to the Springer Open Choice Licence.

### **Offprints / Reprints**

Free and/or additional **offprints** can be ordered by the corresponding author. 25 offprints of each contribution are supplied free of charge to the corresponding author.

### **Color in print**

Online publication of **color illustrations** is free of charge. For color in the print version, authors will be expected to make a contribution towards the extra costs.

### **Online first**

### **Proof reading**

The purpose of the **proof** is to check for typesetting errors and the completeness and accuracy of the text, tables and figures. Substantial changes in content, e.g., new results, corrected values, title and authorship, are not allowed without the approval of the Editor.

After online publication, further changes can only be made in the form of an erratum, which will be hyperlinked to the article.
